

# Energy Commission Announces Proposition 39 Guideline Draft Substantive Changes Meetings

---

**SACRAMENTO** - The California Energy Commission is hosting a series of public meetings to present draft substantive change revisions and receive comments about the **Proposition 39: California Clean Energy Jobs Act – 2015 Program Implementation Guidelines**.

Passed by voters in November 2012, Proposition 39 makes changes to corporate income taxes and provides up to \$550 million per year for five fiscal years, to improve the energy efficiency of California’s aging schools and grow the state’s significant clean energy economy. California public schools (K-12), county offices of education, charter schools, and state special schools became eligible to receive funding starting with the 2013-14 fiscal year.

Since the Proposition 39 Guidelines were approved in December 2013, the Energy Commission has developed the energy expenditure plan application and handbook, provided training, processed school energy expenditure plans, and completed a successful first program year. Moving into the second year, program changes are being considered. For your convenience, the Energy Commission will host a webinar and two in-person meetings to explain the preliminary substantive changes to the Proposition 39 guidelines (see schedule below). The public is invited to participate and provide input. The final Proposition 39 guidelines will be adopted at an Energy Commission business meeting in December 2014.

Public comments submitted via email should include docket number **13-CCEJA-1** and indicate “Comments on Proposition 39 Guidelines” in the subject line. Comments must be sent to [docket@energy.ca.gov](mailto:docket@energy.ca.gov) by October 27, 2014 to be considered in the Guidelines revision.
