Notice of Proposed Substantive Changes to *Guidelines* for the California Clean Energy Jobs Act (Proposition 39)

The California Energy Commission will hold a Business Meeting on:

December 10, 2014
Beginning at 10 a.m.
CALIFORNIA ENERGY COMMISSION
1516 Ninth Street
First Floor, Hearing Room A
Sacramento, California
(Wheelchair Accessible)

Note: Audio from this meeting will be broadcast over the Internet with Remote Access
available by Computer or Phone via WebEx™
(Instructions below)

At the Business Meeting the Commission will consider adoption of proposed substantive changes to the *Guidelines* for the California Clean Energy Jobs Act (Proposition 39). The proposed changes to the *Guidelines* will be posted on the Energy Commission website on November 24, 2014 at:

www.energy.ca.gov/efficiency/proposition39/index.html

The Energy Commission conducted two public meetings and one webinar in three different locations across the state. Staff explained the proposed substantive changes to the *Guidelines* at these events, and the public was invited to participate and provide

input to the draft changes. In addition, the Energy Commission accepted written public comments on the proposed changes. The proposed *Guidelines* reflect the comments provided by the public and other stakeholders.

At the December 10, 2014 Business Meeting, Energy Commission staff will present an overview of the proposed changes to the *Guidelines*. The public can provide input on the proposed *Guidelines* changes prior to December 10 by submitting comments to the Energy Commission at docket@energy.ca.gov. On the subject line include the docket number "Docket 13-CCEJA-0: Comments on Prop 39". At the December 10, 2014 Business Meeting, the Commission will identify any additional proposed changes and provide an opportunity for public comment on the *Guidelines* prior to adoption.

Background

Passed by voters in November 2012, Proposition 39 makes changes to corporate income taxes and provides up to \$550 million to improve the energy efficiency of California's aging schools and grow the state's significant clean energy economy. California public schools (K-12), county offices of education, community college districts, charter schools, and state special schools received funding starting with the 2013-14 fiscal year.

Under Senate Bill 73 (Stats. 2013, ch. 29.), the Legislature directed the Energy Commission to adopt the *Guidelines* at a publicly noticed meeting and to provide an opportunity for public comment. The adoption of the *Guidelines* is exempt from the administrative rulemaking process found in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.
