This looks fine, although I thought that you had indicated that the Governor's Office was considering taking a position that SR 127 could not be used because it was not the most direct route. I didn't see any reference to that. I also thought you had said that you were considering requesting DOE to delay the eight shipments until the remainder of the shipments were ready to travel also. What is that status? Lastly, I don't see any reference to the informal notification of the shipments' ingress and egress from California and any unusual, potential noteworthy notifications that Randy committed to make to the workgroup members, including Ed and me.

Attached for your review and comment is a draft summary and action items from our June 9 meeting.

Please note that we will have a conference call that will be scheduled some time in the afternoon of June 26 to get an update on the schedule and plan for shipments. We are still working on the routing issue.

Aloha!!

Barbara
