Subject: ADDENDUM TO RULEMAKING FILE #Z97-0506-05  
HAZARDOUS MATERIALS REGULATIONS (9701)

In response to your inquiry on August 14, 1997, regarding the above mentioned rulemaking file, the California Highway Patrol provides the following information as an addendum to our package. Section 33000 of the California Vehicle Code requires the California Highway Patrol (CHP) to consult with the Department Health Services (DHS) prior to adopting regulations concerning the transportation of radioactive materials. During the development of this Rulemaking Action, CHP contacted both the Hazardous Waste Management Branch and the Hazardous Materials Management Section at the DHS. Neither office had any concerns with the content of this rulemaking file.

If you have any questions or concerns regarding this request, please call Ms. Fran Schurer, Mr. Paul Horgan or Mr. Steve Brown, Commercial Vehicle Section, at (916) 327-3310.
