

**Opening Remarks:
International and State Programs
To Mitigate Climate Change
at
Fourth Annual Haagen-Smit Symposium
April 7, 2004**

**Terry Surles
California Energy Commission**

Where Must We Link Science and Policy?

- ★ Create active programs where a stable constituency has been created
- ★ Build upon science from all sources
- ★ Work “bottom up” approach to create traction for broader-based programs
- ★ Policy incentives may foster the early economic growth of new technologies for eventual export.
