### **Renewables Portfolio Standard Eligibility Guidebook Publication No. CEC-300-2007-006-ED3-CMF**

### **Overall Guidebook for the Renewable Energy Program Publication No. CEC-300-2007-003-ED2-CMF**

At its December 19, 2007, business meeting, the California Energy Commission (Energy Commission) adopted changes to the following two guidebooks relating to the Energy Commission's Renewable Energy Program and the Renewables Portfolio Standard:

- *Renewables Portfolio Standard Eligibility Guidebook*. This guidebook describes the eligibility requirements and process for certifying renewable resources as eligible for California's Renewables Portfolio Standard (RPS) and describes how the Energy Commission has designed and is implementing an accounting system to verify compliance with the RPS.
- *Overall Program Guidebook*. This guidebook describes specific aspects of how the Energy Commission's Renewable Energy Program is administered.

The adopted guidebooks include errata incorporated by reference and presented by staff at the December 19, 2007, business meeting and accepted by the Energy Commission. The errata, which were revised after December 19, 2007, and based on the Energy Commission's direction, provide clarifications to the text of the *Guidebooks* based on party comments received during the comment period and received during the business meeting. The errata are identified in the revised notice of errata, which is

available on the Energy Commission's website at  
[\[www.energy.ca.gov/portfolio/notices/index.html\]](http://www.energy.ca.gov/portfolio/notices/index.html).

These *Guidebooks*, in which the revised errata are incorporated, are available for download from the Energy Commission's website at:  
[\[http://www.energy.ca.gov/renewables/documents/index.html#rps\]](http://www.energy.ca.gov/renewables/documents/index.html#rps).
