**Revised Notice of Availability**  
**Renewables Portfolio Standard Eligibility Guidebook,**  
**Fifth Edition**  
**Publication No. CEC-300-2012-002-CMF**

**Docket Nos. 11-RPS-01; 02-REN-1038**

The Energy Commission adopted the *Renewables Portfolio Standard Eligibility Guidebook, Fifth Edition*, at its May 9, 2012, Business Meeting. The *Renewables Portfolio Standard Eligibility Guidebook* describes the requirements and process for certifying electrical generation facilities as eligible renewable energy resources for the RPS and describes how the Energy Commission tracks and verifies compliance with the RPS.

An administrative error resulted in the omission of proposed revisions that were provided in Attachment B to the Revised Notice to Consider Adoption of Revisions to the *Renewables Portfolio Standard Eligibility Guidebook* and the *Overall Program Guidebook for the Renewable Energy Program* released on April 27, 2012. Although the Energy Commission adopted the proposed revisions at its May 9, 2012, Business Meeting, the *RPS Eligibility Guidebook* posted on May 21, 2012, did not contain those revisions. A corrected version is now available on the Energy Commission's website.

This document is available free from the Energy Commission's website at:
