FILED ON: 10/10/2013

DATED AT SANTA MARIA, CA THIS 10th DAY OF OCT
2013

Teresa Ramirez
SIGNATURE

Notice of Public Hearing for the City of Lompoc's Revised Renewal Energy Procurement Plan to be held on October 15, 2013 at 6:00 p.m. at City of Lompoc, 100 Civic Center Plaza, Lompoc, CA 93438. A detailed copy of the Revised Renewal Energy Procurement Plan can be found on the City of Lompoc's website, www.cityoflompoc.com, under council agendas which will be posted on October 8, 2013.

Background:
City Resolution No. 5754(11) established the City's initial Plan which was in-line with Senate Bill SBX1-2, Renewable Portfolio Standard ("RPS") legislation, signed by Governor Brown April 12, 2011. This legislation modified the state's RPS and sets forth new RPS requirements applicable to publicly owned utilities ("POUs"). The City's Electric Utility, as a POU, is covered under the new legislation. Recently drafted RPS regulations became effective October 1, 2013. Pursuant to these regulations some new language needed to be added to and some language deleted from the City's Plan. Exhibit No. 1 presents the City's revised Plan.

In order to fulfill long-term renewable energy generation resource needs, the City needs to adopt and implement the revised Plan, by November 27, 2013, which requires the City's POU to procure a minimum quantity of electricity products from eligible renewable energy resources as a specified percentage of the City's total kilowatt hours sold to its retail end-use customers to achieve the targets specified in SBX1-2.

The primary propose of this legislation is to have 20%, 25%, and 33% of the City's energy sales supplied by renewable energy generation by the end of 2013, 2016, and 2020, respectively. Renewable energy generation includes solar, geothermal, small hydroelectric, wind, among other sources.

For further information, please contact Marty J. Hostler, Electrical Utility Manager at (805) 875-8296.
