Public Notice

Renewable Portfolio Standard 2016 Procurement Plan Update

Notice is hereby given that the Port of Stockton will be conducting a public meeting to review implementation of a Renewable Portfolio Standard 2016 Procurement Plan Update. The public meeting will be conducted on:

Thursday, August 11, 2016, at 10:00 AM

at the

Portside Room

2303 West Washington Street,

Stockton, California

The Port of Stockton has prepared a draft plan for the procurement of renewable electric energy necessary to meet the State of California's Renewable Portfolio Standard (RPS). This RPS requires the Port to provide 50% of its electricity supply for retail sales from qualified renewable resources by 2030. The Renewable Portfolio Standard 2016 Procurement Plan Update has been developed to continue a strategy for the cost effective implementation of the state RPS. This public meeting will provide the Port's customers with an opportunity to ask questions and provide comments on the updated plan.

A paper or electronic copy of the plan update can be obtained from Janice Dias by calling her at (209) 946-0246, or sending an email request to jdias@stocktonport.com.
