

Plug-in hybrid heavy duty truck

PG&E Plug-in hybrid bucket truck

Plug-in hybrid Digger Derrick

## Recommendations:

- Cover the differential cost of plug-in hybrid electric medium and heavy-duty vehicles.
- Fund market demonstrations: possible partnership with final-stage vehicle manufactures, charge station manufacturers, utilities and electrical contractors.
- Fund development and demonstration of Retrofit kits for Medium and Heavy-duty plug-in hybrid trucks
- Defray costs of chargers and their installation, for both private fleets and public access.

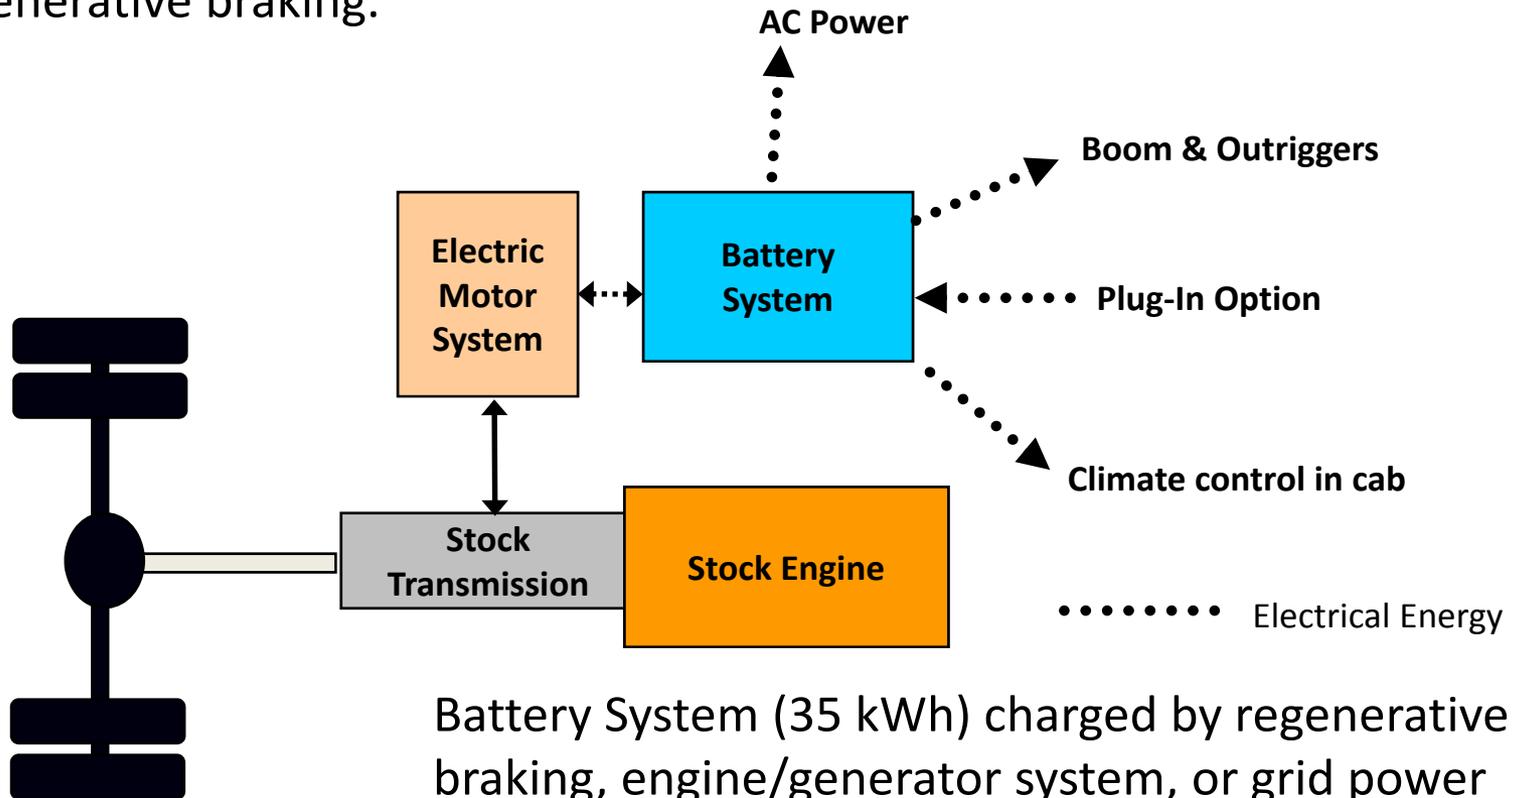

## R&D support:

- Improve first generation plug-in hybrid electric medium and heavy-duty trucks
- Develop longer-term advancements such as a combined electric and hydraulic hybrid system, and other hybrid technologies.

# DUECO Plug-in Hybrid

Electric Traction Motor/Generator provides propulsion assist and regenerative braking.

Battery System (35 kWh) charged by regenerative braking, engine/generator system, or grid power through a charging station.
