The meeting agenda and WebEx log-in instructions  
will be posted before the meeting date.

As part of the July 28, 2010, Business Meeting, the Energy Commission will consider adopting changes to the *California State Energy Efficient Appliance Rebate Program Guidelines (Guidelines)*. These *Guidelines* were developed to help implement and administer rebates for qualifying appliances under the American Recovery and Reinvestment Act (ARRA) of 2009. The U.S. Department of Energy (DOE) has allocated to the Energy Commission \$35.2 million in ARRA funds to implement a State Energy Efficiency Appliance Rebate Program for California that will provide rebates to encourage the replacement of inefficient residential appliances with new energy efficient residential appliances. The *Guidelines* establish the eligibility and procedural requirements to qualify for rebates for the purchase of eligible residential appliances. The *Guidelines* were originally adopted by the Energy Commission on December 16,

2009, and were subsequently amended on March 24, 2010, May 19, 2010 and May 27, 2010.

At the direction of the Energy Commission's Ad Hoc Committee on Federal Stimulus Programs (Committee), proposed changes have been made to the *Guidelines* to include additional categories of appliances to those that are eligible for rebates due to the continued availability of funds. Dish washers, freezers, water heaters and heating, ventilating and air conditioning systems that meet specified requirements will be eligible for rebates subsequent to the adoption of the changes to the *Guidelines*.

The proposed changes are shown in the Committee Draft version of the *Guidelines* changes. The Committee Draft version of the *Guidelines* changes is available online at: [www.energy.ca.gov/stimulus/index.html](http://www.energy.ca.gov/stimulus/index.html).

Printed copies of the Committee Draft version of the *Guideline* changes may be obtained by contacting:
