RE: Docket Number 06-NSHP-1 (Solar Homes Partnership)

Dear Commissioners,

Independent Energy Solutions (IES) values the support and effort that SDG&E has provided in getting our many Grid-Tied PV systems approved for interconnection. The interconnection process has been made easier by the group's availability to review issues such as metering requirements, access and gear placement prior to construction.

Key to this service has been the prompt processing of interconnection applications, quick identification of non-conforming installations, superior tech support, fast onsite inspections and immediate notification of authorization to interconnect (once an installation is approved).

IES has come to count on SDG&E as a highly valued team member.

Sincerely,

Troy Strand
President
Independent Energy Solutions, Inc.
