The NSHP program is a ten-year, \$400 million solar program which provides incentives for the installation of photovoltaic (PV) solar systems on new, energy-efficient homes in California's investor-owned utility electric service territories.

This workshop will be taught by staff members of the California Energy Commission and will include information on the following topics:

- NSHP Guidebook, Fourth Edition
- Application and payment process, and required documents
- NSHP energy efficiency requirements
- NSHP Online Application Tool – submitting applications and payment claims electronically
- NSHP CECPV Calculator
- NSHP Application Clinic (for in-person attendees by appointment only)

### **Who should attend:**
