Subject: Fwd: Solar Turbine Program

Dear Public Adviser,

I am writing to you to express my extreme dissatisfaction with the current situation as to the renewable energy program I signed up for. This program was supposed to help bring more personal wind turbines into the area in a way that was fully financed and subsidized and now I am being told that the deal has changed.

I am writing to you to ask that the original terms of this agreement be honored. If the goal is to bring renewable energy to households that could use the relief, your new version of the program won't cut it.

Thank you
Sam Patterson
