California Energy Commission

**DOCKETED**  
**12-EPIC-1**

TN # 66766  
AUG 17 2012

To the Commission:

CALIFORNIA  
Anaheim  
Inland Empire

In keeping with its management role, TTG (TMAD TAYLOR & GAINES), an all discipline engineering firm, is uniquely positioned to coordinate and implement the EPIC program along with its multiple partners in various healthcare, educational, commercial, and institutional settings.

Los Angeles  
Pasadena  
San Diego  
San Francisco

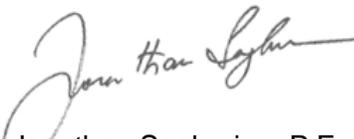

Because of its 6 locations in the largest population centers in California, its multiple disciplines and its commitment to sustainable energy sources, TTG believes that the EPIC program will allow more buildings to be developed with sustainable measures fully implemented by trained professionals.

Our mentorship programs training college interns into trained professionals in sustainable energy sources will be another means of achieving the EPIC goals.

COLORADO  
Lone Tree

Sincerely,

TEXAS  
Austin  
Dallas  
San Antonio
