I do not approve of the investment plan proposed by EPIC for these reasons:

- 1) No clear value is given.
- 2) It puts rate payers at risk by immediate energy hikes, and also deterring their ability within a community to create its own utilities.
- 3) It takes away fair competition by ensuring the big three power companies have the ability to create the opportunities without letting any other competitors in.

For these reasons I think the EPIC funds should not receive the award.
