**DOCKETED**

**12-EPIC-1**

TN #67481

OCT. 02 2012

Subject: Docket No. 12-EPIC-01 –.

To the California Energy Commission:

On behalf of TMAD Taylor and Gaines, a global consulting engineering Firm based in Pasadena, California, we appreciate the opportunity to submit comments on the Electric Program Investment Charge (EPIC) Draft Triennial Funding Program.

Our comments are the following;

- We support funding of renewable energy technology for hospitals with the Categories S1, S2 and S6.
- TTG, with its' statewide network of offices and 40 years of involvement in the hospital sector (more than 2000 hospital projects and national/international experience in design of renewable energy facilities, is ideally suited to help arrange demonstration projects for the Energy Commission.

In that regard, we have identified five hospitals in the Los Angeles metropolitan area which could be good candidates for this type of program.

Thank you again for the opportunity to make comments on this important program.

Sincerely,

A handwritten signature in black ink, appearing to read 'David Noferi', written in a cursive style.

David Noferi, AIA  
Director, TTG Healthcare Practice.
