Notice of Joint Webinar on the Implementation of 2012-2014 Triennial Investment Plans for the Electric Program Investment Charge Program

The California Energy Commission, Pacific Gas and Electric Company, San Diego Gas & Electric Company, and Southern California Edison Company will conduct a joint webinar to discuss the implementation of the first triennial investment plans for the Electric Program Investment Charge Program. Energy Commission commissioners may also participate in the webinar.

December 18, 2013
1:30 p.m. to 3:30 p.m.

Participation will only be available through computer or phone via WebEx™
(Instructions below)

Background

The California Public Utilities Commission (CPUC) established the purposes and governance for the Electric Program Investment Charge (EPIC) in Decision 12-05-037 for Rulemaking 11-10-003 on May 24, 2012, as modified, available online at: http://docs.cpuc.ca.gov/PublishedDocs/WORD_PDF/FINAL_DECISION/167664.PDF. In accordance with this decision, the Energy Commission, Pacific Gas and Electric Company (PG&E), San Diego Gas & Electric Company (SDG&E), and Southern California Edison Company (SCE), as the four administrators of the program, submitted coordinated investment plans to the CPUC for consideration on November 1, 2012.

The portion of the EPIC Program administered by the Energy Commission will provide funding for applied research and development, technology demonstration and deployment, and market facilitation for clean energy technologies and approaches for

the benefit of ratepayers of PG&E, SDG&E, and SCE. The portion of the EPIC Program administered by PG&E, SDG&E, and SCE will provide funding for technology demonstration and deployment projects in the following categories:

- 1) Renewable and Distributed Energy Resources Integration
- 2) Grid Modernization and Optimization
- 3) Customer-Focused Products and Services Enablement and Integration
- 4) Cross Cutting/Foundational Strategies and Technologies

For the portion of the EPIC Program administered by the Energy Commission, the proposed 2012-2014 Triennial Investment Plan was developed with guidance and input from Energy Commission Chair Robert B. Weisenmiller in his capacity as the lead commissioner on research, development, and demonstration matters. In addition, the development of the proposed 2012-2014 Triennial Investment Plan included input received from experts and stakeholders identified in CPUC Decision 12-05-037, as modified, in Rulemaking 11-10-003 and Decision 13-11-025 in Consolidated Applications 12-11-001 et al.

On November 14, 2013, in Decision 13-11-025, the CPUC modified and approved the 2012-2014 Triennial Investment Plans proposed by the Energy Commission, PG&E SDG&E, and SCE. The Decision is available online at <http://docs.cpuc.ca.gov/PublishedDocs/Published/G000/M081/K773/81773445.PDF>.

As directed under Ordering Paragraph 15 of Decision 12-05-037, this webinar will provide information and seek stakeholder input on the implementation of the approved 2012-2014 Triennial Investment Plans for the Electric Program Investment Charge Program. An agenda will be available on or before December 11, 2013.
