

# COMPACTA INTERNATIONAL, LTD.

Mr. Eli Harland  
California Energy Commission  
1516 Ninth St.  
Sacramento, CA 95814

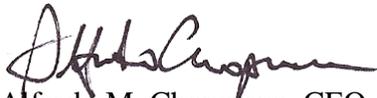

Dear Mr. Harland,

Our company, Smartenit, Inc., is a California small business that supplies products and services for water and electricity management. We joined the California Plug Load Research Center (CalPlug) in 2014 and have since received many benefits from this valuable program.

As a small business, membership in CalPlug is essential for access to research in energy savings and efficiency, and to partnerships and collaborations in these areas. We deeply appreciate the active role CalPlug has taken in bringing together utilities, government agencies and companies to advance innovation and to ensure that California remains a leader in energy efficiency.

Continued support by the CEC and CPUC for programs such as CalPlug, will ensure that California businesses like ours succeed in bringing practical solutions for energy efficiency. In turn, this will lead to a greener planet and a better quality of life for all.

Sincerely,

Alfredo M. Chopena, CEO  
Smartenit, Inc.
