

Phase 2 Conceptual Planning Work Group  
Agenda for January 9, 2009

To be held at:

Parkview Professional Office Building, Room 119  
73710 Fred Waring Drive  
Palm Desert, CA 92260

1. Assemble a statewide conceptual plan
  - \* confirm N. CA components of the proposed build out, with input from RIR study
  - \* confirm S. CA components, using SCE corridor proposal as starting point; compare to network upgrades identified by SDG&E study
  - \* develop S-N upgrade recommendation (e.g., Tehachapi-Gregg; N. of Gregg)
  
2. Develop a rationale for deciding which components of the statewide plan should be built first (i.e., which components should be studied in 2009 transmission planning process for ISO and POU approval)
  - \* compare revised ISO queue to RETI CREZ projects
  
3. Process for testing and confirming statewide conceptual plan
  - \* learning from SDG&E power flow studies
  - \* Additional power flow studies?
  - \* Other approaches for confirming feasibility of the conceptual plan
  
4. Process for developing cost estimates of priority components of the conceptual plan
  
5. Implications of statewide plan for corridor designation
  
6. Set agenda for Jan. 21 meeting and interim assignments
