**NOTE:** Please provide your issue priorities on the questionnaire below prior to the initial Siting Committee OII scoping Workshop on December 14, 2010. Otherwise, please submit your comments by January 3, 2011. You can either mail or submit this form electronically to: [mmonasmi@energy.state.ca.us](mailto:mmonasmi@energy.state.ca.us).

## OII "Lessons Learned" Proceeding: Siting Policy/Process Issues – Check top 5 priorities

- Timing/coordination with federal permits
- Hydrological impacts and water supply reliability
- Land use constraints including availability of large tracts of developable land
- Impacts to biological and cultural resources, associated mitigation strategies
- Transmission line constraints
- Visual and/or Recreation/Open Space issues
- Local agency and public participation
- Siting Process consistency; cumulative analyses determinations/definitions
- CEQA equivalency; Alternatives analyses and NEPA coordination
