

Section 8 CONCLUSIONS AND RECOMMENDED FINDINGS

PVSI recommends that the Commission approve this Petition For Amendment with the Conditions of Certification changes proposed. The Petition would enable the construction and operation of the world's largest PV solar plant. The use of PV technology, in every technical area, either reduces impacts or results in impacts that are the same as the original BSPP.

The Commission originally made override findings for the BSPP accepting some impacts in exchange for the benefits of the project. The underlying rationale for those findings remains unchanged. Therefore, the Petition should be approved.
