1516 NINTH STREET  
SACRAMENTO, CA 95814-5512

July 17, 2007

Mr. Gary L. Palo, Project Director  
Blythe Energy, LLC T-line Project  
6 Belcourt Drive  
Newport Beach, CA 92660  
Juno Beach, FL 33408

Subject: Blythe Energy, LLC's Blythe Energy Project (99-AFC-8C)  
Approval of Insignificant Project Change Petition requesting minor route  
and pole location changes and new switchyard interconnection

Dear Gary:

In accordance with the provisions of Title 20, California Code of Regulations, section 1769(a), California Energy Commission (Energy Commission) staff reviewed Blythe Energy, LLC's petition dated April 13, 2007, requesting approval of an Insignificant Project Change (IPC) petition for minor route and pole location changes and a new switchyard interconnection for the project's transmission line. Staff determined that the petition met the criteria of section 1769(a)(2), and mailed the enclosed "Notice of Insignificant Project Change" to the Energy Commission's post-certification project mailing list on June 29, 2007.

The Energy Commission did not receive any public comments regarding the requested project changes within the 14-day public review period as specified in section 1769(a)(2). Therefore, the IPC petition is approved.

If you have any questions, please call me at (916) 654-3936, or send e-mail to [smunro@energy.state.ca.us](mailto:smunro@energy.state.ca.us). Thank you for your cooperation and assistance.

Sincerely,

STEPHEN D. MUNRO  
Compliance Project Manager  
Systems Assessment & Facilities Siting Division
