Application for Certification, Volumes 1, 2, and 3

Volume 2 – Appendix F – Mechanical and Fire Protection Engineering Design Criteria

Summary: Appendix F contains design codes and standards and mechanical engineering general design criteria for the project. The appendix also contains information on valves, insulation and lagging, and storage tanks (metal).

Proceeding: This Appendix F references the Solar Two Power Project AFC, Volume 2, Appendix F, filed with the California Energy Commission on June 30, 2008. This application (08-AFC-5) was deemed Data Adequate by the California Energy Commission on October 8, 2008.

Relevance: The SES Solar One project will utilize the same mechanical and fire protection engineering design criteria as will be utilized in the SES Solar Two project. Members of the public that desire to learn detailed information on this design criteria can refer to Appendix F of the SES Solar Two project AFC.

This incorporation by reference is requested pursuant to 20 CCR 1704 (a) (2).

Changes in Appendix F

There are no changes in Appendix F – Mechanical and Fire Protection Engineering Design Criteria.
