Mr. Dave Singleton  
Native American Heritage Commission  
915 Capitol Mall, Room 364  
Sacramento, CA 95814

Subject: Carlsbad Energy Center Project

Dear Dave,

CH2M HILL is assisting Carlsbad Energy Center LLC with the preparation of an Application for Certification (AFC) before the California Energy Commission (CEC) for a new power plant located in the City of Carlsbad in San Diego County to be called the Carlsbad Energy Center Project. Please see the enclosed study area map (San Luis Rey and Encinitas 7.5 Minute USGS quadrangles).

We would appreciate your checking the Sacred Lands Files to see if there are any culturally sensitive areas within the immediate project vicinity. We would also like to receive a list of MLD's appropriate for this area since we will attempt to contact local Indian groups to solicit their written input/concerns about the project.

Due to schedule constraints, we request that you conduct this search on an **expedited** priority basis.

Thanks again for your cooperation and assistance. We look forward to your earliest possible reply. If you have any questions, please call me at 714-435-6140.

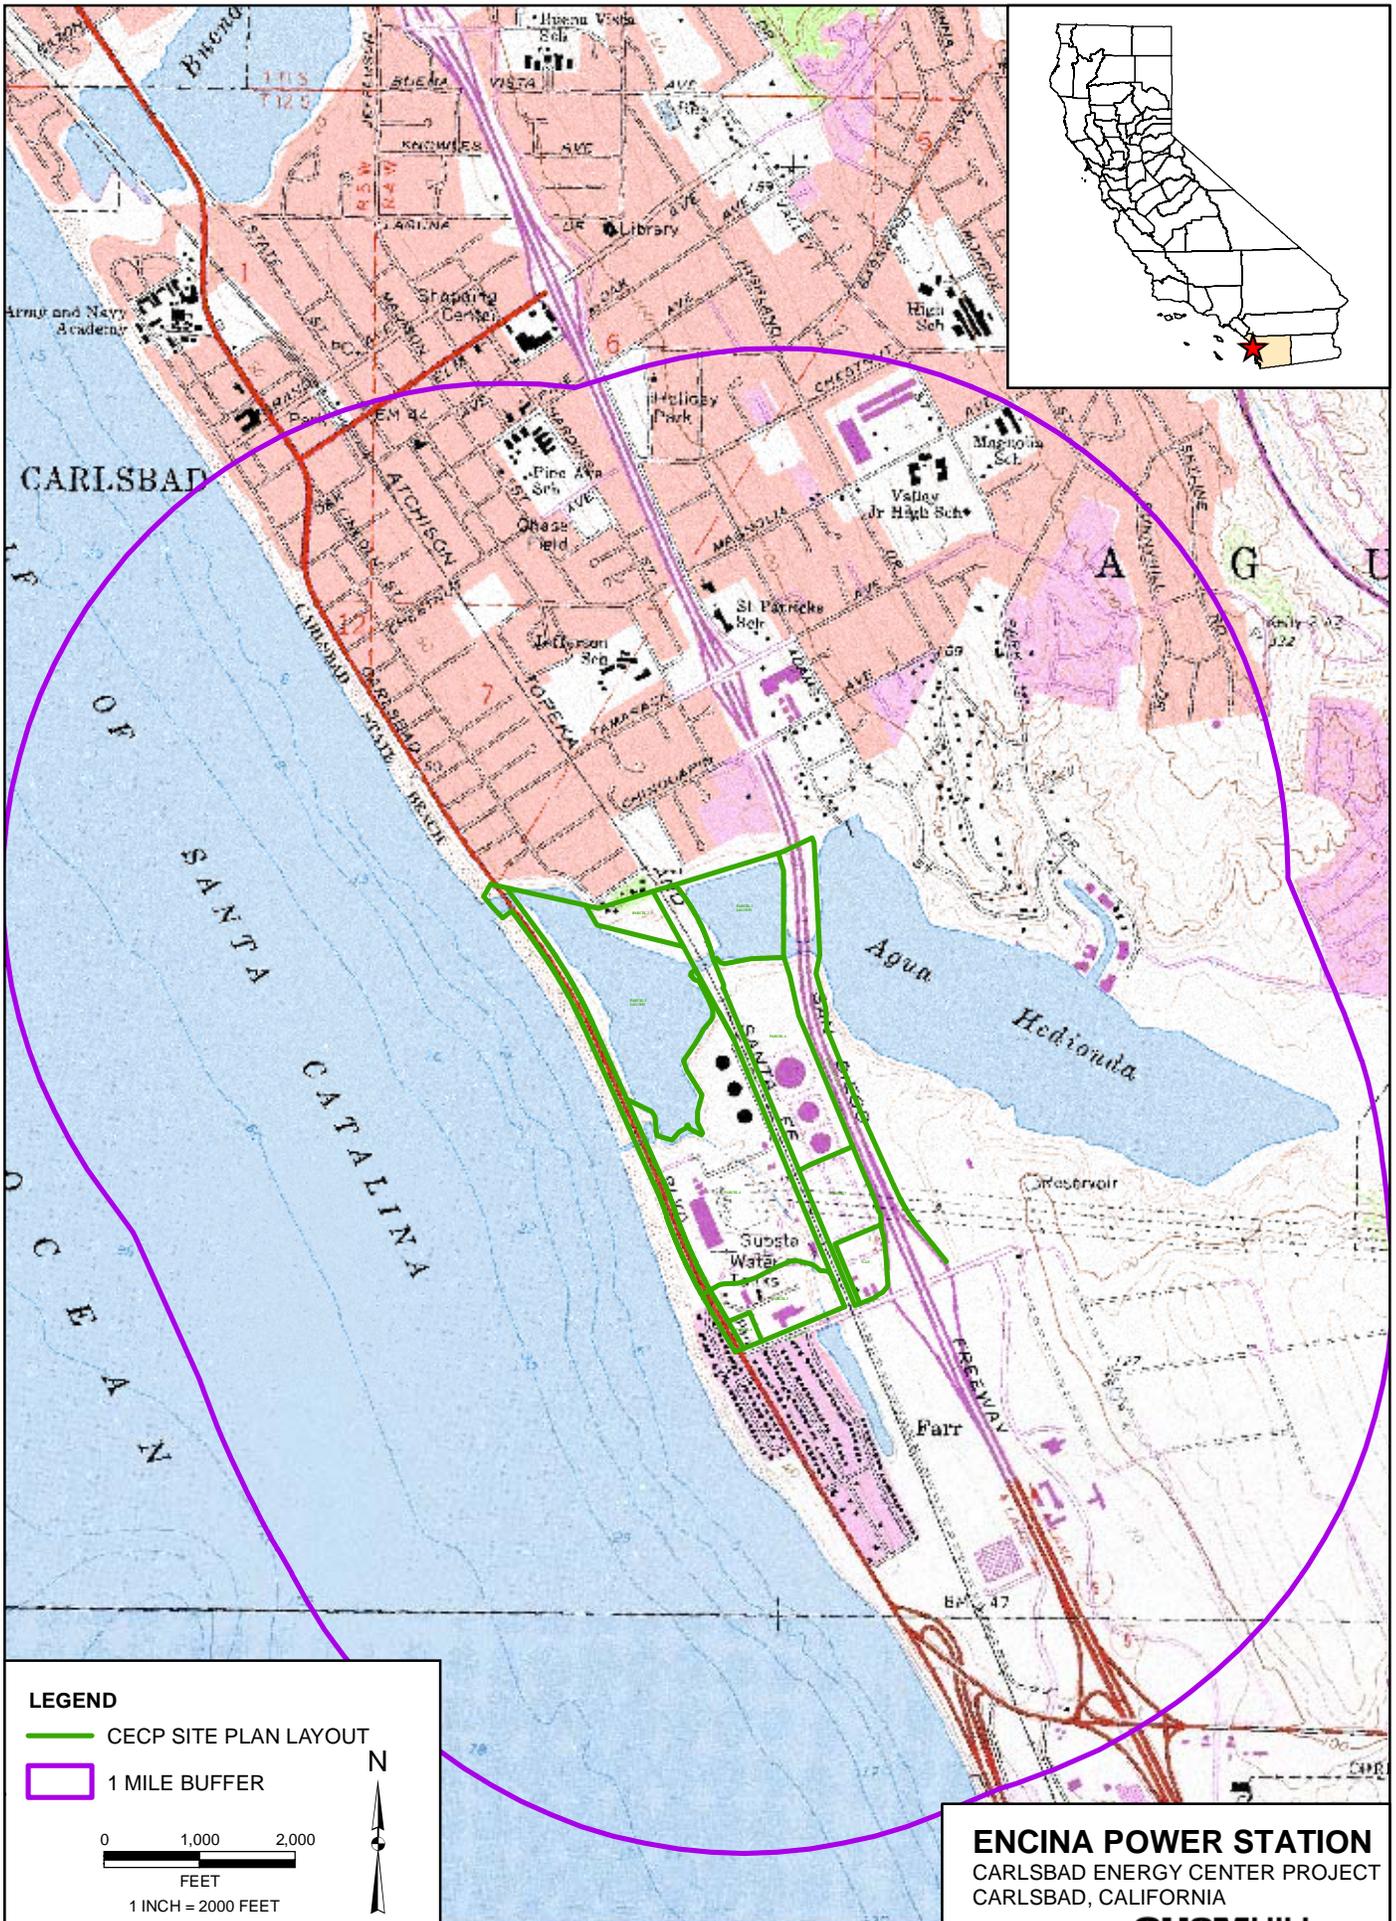

Sincerely,

CH2M HILL

Re: Proposed Carlsbad energy Center Project, San Diego County.

Dear Mr. Helton:

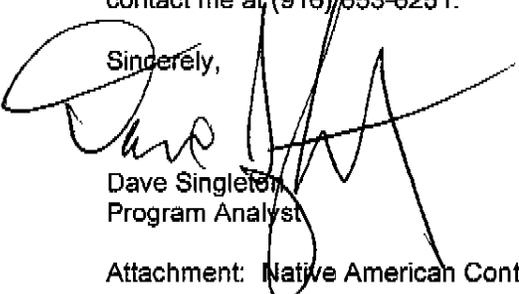

The Native American Heritage Commission was able to perform a record search of its Sacred Lands File (SLF) for the affected project area. The SLF failed to indicate the presence of Native American cultural resources in the immediate project area. The absence of specific site information in the Sacred Lands File does not guarantee the absence of cultural resources in any 'area of potential effect (APE).'

Early consultation with Native American tribes in your area is the best way to avoid unanticipated discoveries once a project is underway. Enclosed are the nearest tribes that may have knowledge of cultural resources in the project area. A List of Native American contacts are attached to assist you. The Commission makes no recommendation of a single individual or group over another. It is advisable to contact the person listed; if they cannot supply you with specific information about the impact on cultural resources, they may be able to refer you to another tribe or person knowledgeable of the cultural resources in or near the affected project area (APE).

Lack of surface evidence of archeological resources does not preclude the existence of archeological resources. Lead agencies should consider avoidance, as defined in Section 15370 of the California Environmental Quality Act (CEQA) when significant cultural resources could be affected by a project. Also, Public Resources Code Section 5097.98 and Health & Safety Code Section 7050.5 provide for provisions for accidentally discovered archeological resources during construction and mandate the processes to be followed in the event of an accidental discovery of any human remains in a project location other than a 'dedicated cemetery. Discussion of these should be included in your environmental documents, as appropriate.

If you have any questions about this response to your request, please do not hesitate to contact me at (916) 653-6251.

Sincerely,

  
Dave Singleton  
Program Analyst

Re: Carlsbad Energy Center Project

Dear Mr. Ron Christman,

CH2M HILL is assisting Carlsbad Energy Center LLC with the preparation of an Application for Certification (AFC) before the California Energy Commission (CEC) for a new power plant located in the City of Carlsbad in San Diego County to be called the Carlsbad Energy Center Project. Please see the enclosed study area map (San Luis Rey and Encinitas 7.5 Minute USGS quadrangles).

A search of the Sacred Land files by the Native American Heritage Commission (NACH) in July 2007 failed to indicate the presence of Native American sacred sites in the immediate Project vicinity.

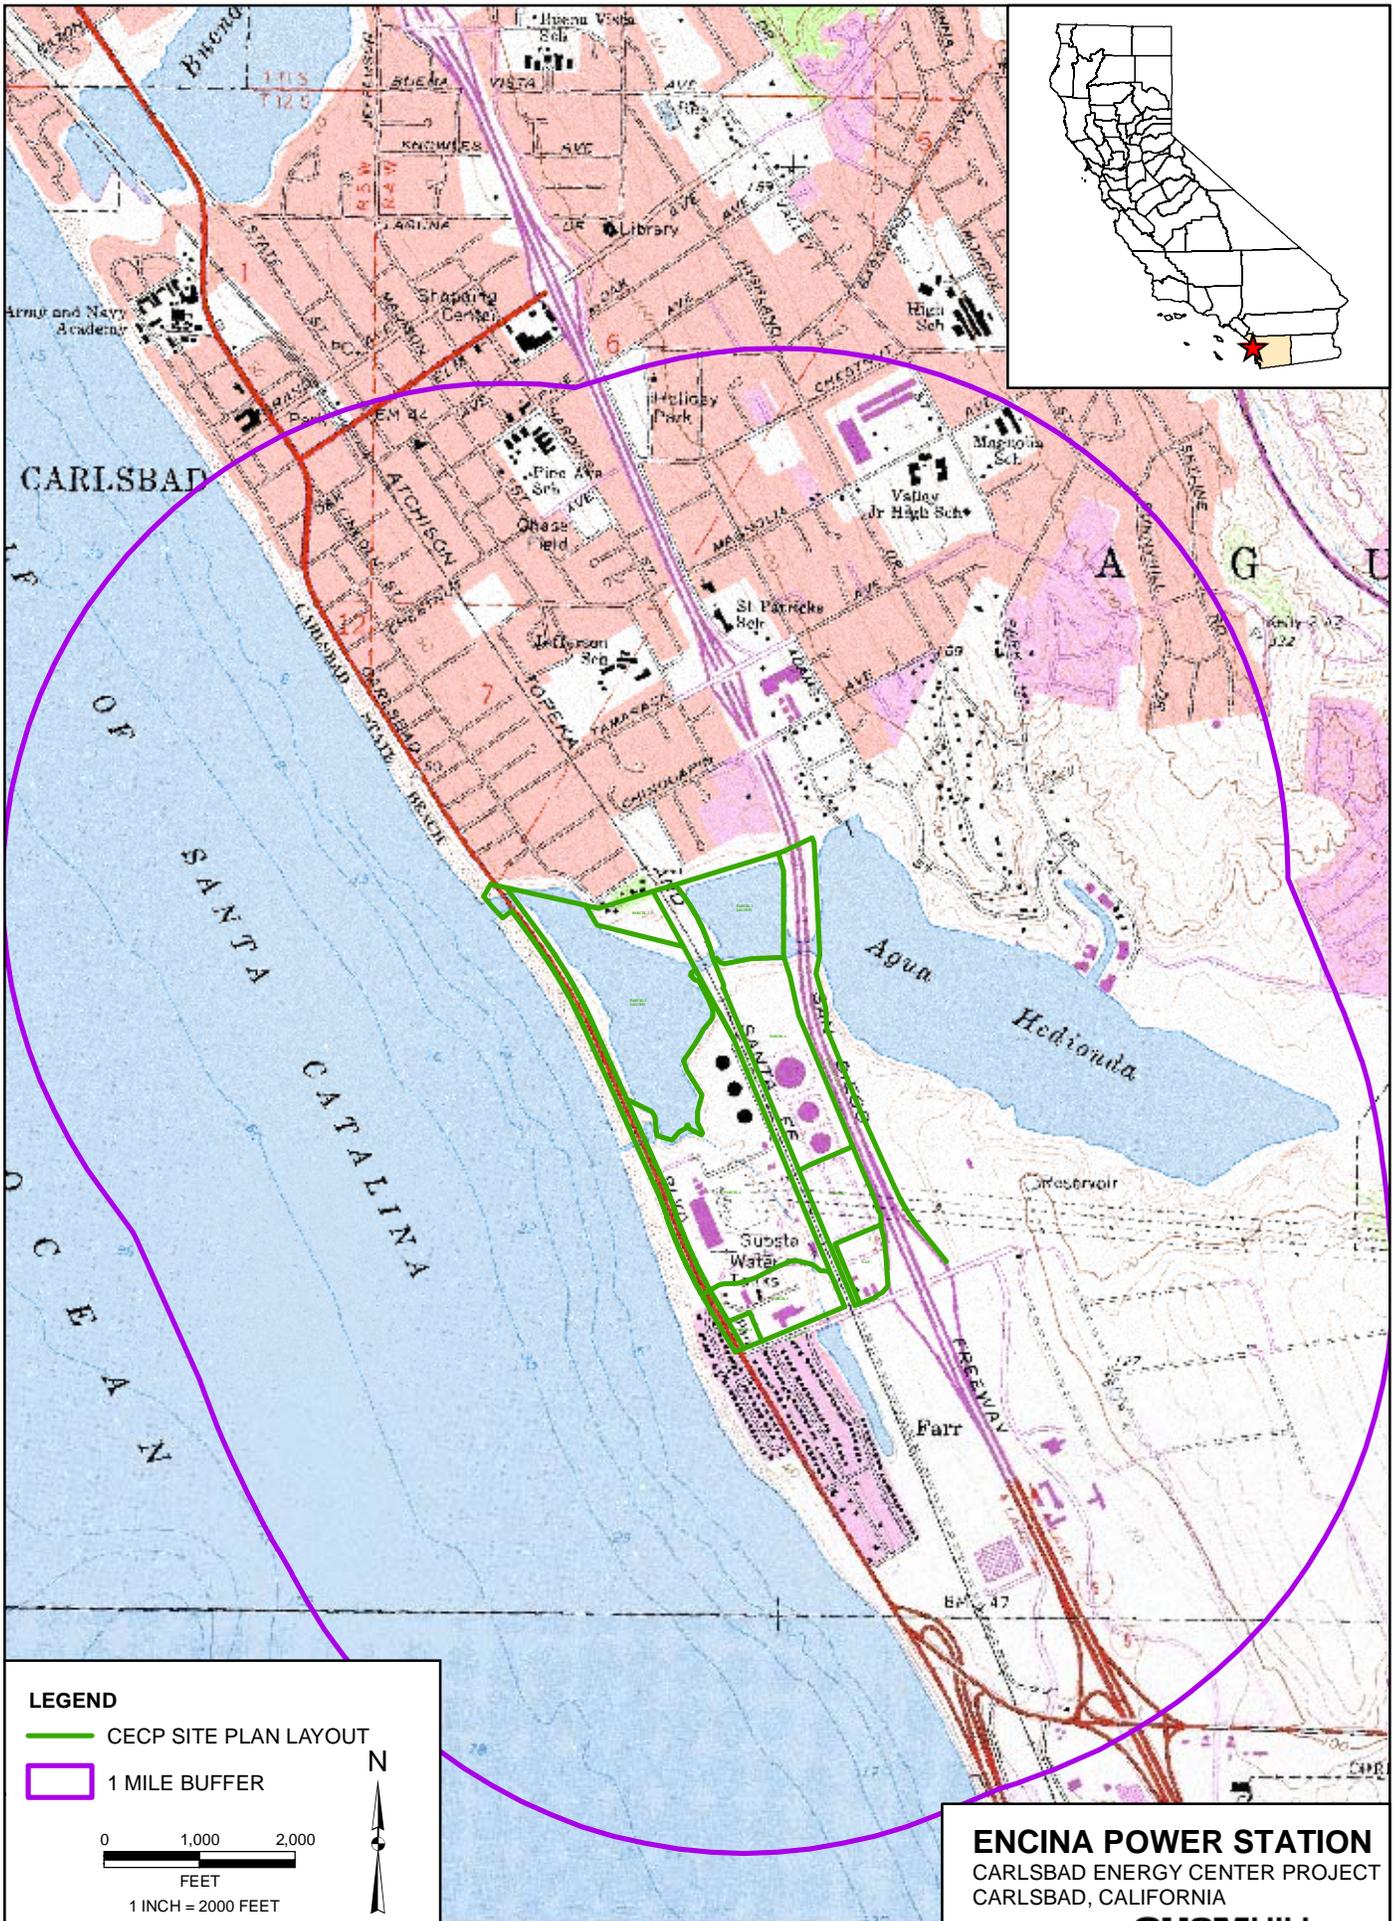

If you know of any traditional cultural properties or values (e.g., burial sites, religious sites, or gathering sites) within the Project area shown on the enclosed map, or if you have any concerns regarding issues related to the overall Project, please contact me at (714) 435-6140 or by mail; you may also contact me at [chelton@ch2m.com](mailto:chelton@ch2m.com).

Your project comments and concerns are important to us. I look forward to hearing from you in the near future.

Respectfully yours,

Clint Helton, RPA  
Project Scientist
