Categories: Ready to Process

Dear Members of the Commission,

My family and I strongly support the construction and commissioning of the "new" 558 MW gas-fired CCGT power plant in Carlsbad (Docket No. 07-ACF-06). We need a highly efficient, reliable, secure and sustainable source of electricity and this proposed base-load power plant is the right long-term solution for our region.

We highly encourage the California Energy Commission to approve the Carlsbad Energy Center as proposed as soon as feasible.

Thank you,
John Daiza
Carlsbad, CA.
