RECD.	<u>APR 25 2012</u>

Hi,

As a resident of Carlsbad, I would like the Energy Commission to reject the proposal to build a new power plant along the coast adjacent to the existing power plant.

The existing plant is an eyesore and detracts from the coastal nature of the community. The City of Carlsbad has proposed alternative sites which seems quite feasible and reasonable.

Please put on your "community" hats (even if you are not from this community!) and not just your "energy" hats when making the final decision as the other potential uses of this very prime coastal site should be factored into the final decision.
