Hi Shaelyn -

The early July filing date for AFC Amendment 2, reconductoring analysis and Phase I ESA are no longer viable. The Phase I's should be available sometime in August. We cannot provide an estimated schedule for the Amendment and reconductoring analysis at this time, but should have a better idea of schedules by the end of June and hope to provide an update in the next status report.

Please feel free to call me with any questions. Thanks.

Subject: July Amendment date

Amy - In view of the Status Report #2, filed by Mr. Galati on May 29, 2008, what are your intentions regarding the filing of the AFC Amendment 2, reconductoring analysis, and Phase I ESA? Is the early July filing date still viable? Thanks - Shaelyn
