

APPENDIX B.7

Offset Listing

The GSEP project, pursuant to the MDAQMD NSR rules, is **not** required to purchase or acquire sufficient emission reduction credits to offset the proposed project emissions due to its anticipated status as a non-major source. MDAQMD offset thresholds are implemented on a “facility” basis. For new facilities the offset thresholds are compared to the facility potential to emit (PTE). Section 5.2, Table 5.2-7 indicates that the proposed facility PTE emissions are well below the Rule 1303 offset thresholds. Therefore, offsets pursuant to the MDAQMD NSR rule are not required. NSR rule required amounts of ERCs are delineated in Table B.7-1.

TABLE B.7-1 MDAQMD EMISSION BANK CREDITS REQUIRED BY GSEP
Emission Reduction Credits (tons/yr)

	PM ₁₀	VOC	NO _x	SO ₂	CO
Total Emission Credits Required to Mitigate GSEP Project Emissions Per District NSR Rule	0	0	0	0	0

* Values derived from Section 5.2.
