

**Appendix 5.2I**  
**BRMIMP Outline**

---

# Biological Resources Mitigation Implementation and Monitoring Plan Outline

---

## Acronyms and Abbreviations

## Preface

### 1. Purpose and Background of the BRMIMP

### 2. Project Description and Schedule

2.1 Project Description

2.2 Construction Description

2.3 Sequence of Construction and Biological Resources Projective Measures

### 3. Description of Biological Resources

3.1 Habitat

3.1.1 General Description

3.2 Project Area Ephemeral Drainages

3.3 Noxious Weeds

3.4 Special-status Plant Species

3.5 Special-status Wildlife

### 4. Authority and Lines of Communication

4.1 Definitions of Participants

4.2 Responsibilities of the Participants

4.2.1 Designated Biologist

4.2.2 Biological Monitors Selection and Qualification

4.2.3 Qualified Botanist and Botanical Monitor

4.2.4 Designated Biologist and Biological Monitor Authority

4.2.5 Agency Responsibilities

4.3 Authority and Lines of Communication

4.3.1 Regulatory Agencies

4.3.2 Roles and Authority of the BSE Construction Personnel

### 5. Worker Environmental Awareness Program

5.1 Program Overview

5.2 WEAP Requirements

5.3 Frequency and Documentation of Training

### 6. Desert Tortoise Minimization and Avoidance Measures

6.1 Minimization Measures from the Biological Opinion

6.1.1 Permanent Fencing

6.1.2 Temporary Exclusion Fencing

6.1.3 Clearance Surveys of Permanent Exclusion Areas

6.1.4 Processing and Release

6.2 Additional Measures Conditions of Certification

### 7. Tortoise Translocation Plan Implementation

7.1 Translocation Area

7.2 Monitoring and Reporting

## **8. Impact Avoidance and Minimization Measures**

### **9. Pre-construction Nest Surveys**

- 9.1 Pre-construction Nest Surveys

### **10. Raven Management**

- 10.1 Introduction
- 10.2 Raven Management Measures

### **11. Weed Management Measures**

- 11.1 Introduction
- 11.2 Preconstruction Surveys Performed
- 11.3 Noxious Weed Management
  - 11.3.1 Preventative Measures
  - 11.3.2 Eradication and Control Measures
- 11.4 Surveys and Monitoring
  - 11.4.1 Construction Areas
  - 11.4.3 General Operations Monitoring
  - 11.4.4 Known Infestation Areas
  - 11.4.5 Offsite Areas
  - 11.4.6 Database and Mapping
- 11.5 Reporting Requirements
  - 11.5.1 Construction
  - 11.5.2 Operations

### **12. Closure, Revegetation, and Rehabilitation**

- 12.1 Introduction
  - 12.2.3 Weed Management
- 12.3 Facility Closure
  - 12.3.1 Closure Activities
  - 12.3.2 Final Closure Plan
  - 12.3.3 Decommissioning Plan
  - 12.3.4 Final Rehabilitation Plan

### **13. Burrowing Owl Impact Avoidance and Minimization Measures**

- 13.1 Introduction
- 13.2 Proposed Mitigation Measures
  - 13.2.1 Avoidance
  - 13.2.2 Relocation
- 13.3 Monitoring
- 13.4 Reporting
- 13.5 Success Criteria
- 13.6 Adaptive Management

### **14. Special-status Plant Avoidance Measures and Mitigation**

- 14.1 Introduction
- 14.2 Goals and Objectives

### **15. Ephemeral Washes**

### **16. Impact Avoidance and Minimization**

- 16.1 Best Management Practices

### **17. Compensatory Mitigation**

## **18. Operations and Maintenance Protection Measures**

- 18.1 Measures Required During Ongoing Operation
- 18.2 Measures Required for Maintenance Activities
  - 18.2.1 Description of Maintenance Activities
  - 18.2.2 Protective Measures

## **19. References**

### **Attachments**

- A CEC Biological Conditions of Certification
- B Biological Opinion
- C Best Management Practices from the Stormwater Pollution Prevention Plan
- D Streambed Alteration Agreement
- E High-resolution Aerial Photo of Site (Pre-construction)
- F Resumes of Designated Biologists, Approved Biologists and Biological Monitors
- G Worker Environmental Awareness Program
- H Desert Tortoise Translocation Plan
- I Raven Management Plan
- J Weed Management Plan
- K Facility Closure, Revegetation, and Rehabilitation Plan
- L Burrowing Owl Mitigation and Monitoring Plan
- M Special-status Plant Protection and Monitoring Plan
- N Special-status Plant Remedial Action Plan (Pending)
- O Avian and Bat Monitoring and Management Plan

### **Tables**

- 1 Summaries of Conditions of Certification for Biological Resources
- 2 Breakdown of Facility Components (in acres)
- 3 Power Block Major Equipment List
- 4 Construction Sequence
- 5 Key Construction Events and Essential Biological Resource Protection Measures
- 6 HHSEGS Project Personnel and Agency Contacts
- 7 Laws, Ordinances, Regulations, and Standards Applicable to the HHSEGS Project

### **Figures**

- 1 Vicinity Map
- 2 Project Site
- 3 HHSEGS Site Plan and Linear Facilities
- 4 Composite Map of Sensitive Biological Resource Areas
- 5 Desert Tortoise Translocation Areas
