RE: 06-AFC-7 – Application for Certification of PG&E's Humboldt Bay Power Plant
Repowering

Dear Mr. Kessler:

Thank you for the opportunity to comment on the above-referenced project. We have reviewed the application you provided and believe it provides adequate information about the issues of concern to the Coastal Commission to file the application as complete. We will, however, be submitting requests during the upcoming discovery and data request processes for additional information about some issue areas, including biological resources, geologic hazards, and others.

Again, thank you for the opportunity. Please contact me at 415-904-5248 or tluster@coastal.ca.gov if you have questions.

Sincerely,

A handwritten signature in black ink that reads "Tom Luster".
