

Occidental of Elk Hills, Inc.
 10800 Stockdale Hwy
 Bakesfield, CA 93311

Transmittal

October 14, 2009

Attn: Randy Adams, Burt Ellison
 Division Of Oil And Gas & Geothermal Resources
 4800 Stockdale Hwy. Suite 417
 Bakesfield, CA 93309

This is a copy the
 transmittal provided to
 DOGGR.
 Below are the versions of
 documents enclosed on
 archive CD

Copies	Description	
1	Bound Oxy CO2 Project Injection Permit Request	14-Oct
1	Binder Appendix A through E	
Appendix A	Elk Hills Stevens CO2 Class II UIC Permit Supplement	09-Oct
Appendix B	DOGGR Dual Steamflood / Waterflood Project Stevens Zone Permit #22800006 DOGGR Dual Waterflood / CO2 Project Stevens Zone Permit #22800021	
Appendix C	Completion and status map of all wells that have penetrated the Reef Ridge Shale indicating active or inactive producers and injectors, and abandoned wellbores.	02-Sep
Appendix D	Wellbore and casing diagrams within a ¼ mile radius of proposed project boundaries of all wells penetrating the Reef Ridge Shale (Cap Rock).	14-Oct
Appendix E	List of wells within a ¼ mile radius of the proposed permit area that do not penetrate the Reef Ridge Shale. Included are API#, year of completion, status, and TD (TVDss).	21-Jul
1	Binder Appendix F through J	
Appendix F	Structural contour maps for each unit and sub-unit from the Reef Ridge Shale (cap rock) to the BLW (base of the injection zone).	14-Oct
Appendix G	Isochore maps for the reef ridge (cap rock) and all major zones of injection through the BLW (base of the injection zone).	14-Oct
Appendix H	Northwest - Southeast cross section and a Northeast - Southwest cross section through the proposed permit area	14-Oct
Appendix I	A 2-inch type log of 355A-35S with interpreted geologic markers listed.	
Appendix J	AAPG Bulletin: Charging of Elk Hills reservoirs as determined by oil geochemistry
