RE: Docket #08-AFC-8A "Hydrogen Energy California", 9-27-12 Workshop Location

Dear Mr. Worl:

I am writing to express our objection to the location of a staff workshop for the Hydrogen Energy California project in Sacramento, California on September 27, 2012.

Considering the technical areas of this project being discussed at the workshop would impact Kern County, not Sacramento, we feel that workshops of this kind should be held closer to the projects proposed location, such as Bakersfield. Furthermore, this is conventional harvest period for the concerned farmers neighboring the project, further inhibiting their availability to be in person at this workshop in Sacramento.

Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steve Maniaci'.
