Project Manager

CALIF ENERGY COMMISSION

JAN 29 2003

Subject : **REVISED HEARING DRAFT GENERAL PLAN LAND USE MAP, HARVEST
VALLEY/WINCHESTER AREA PLAN**

RECEIVED IN DOCKETS

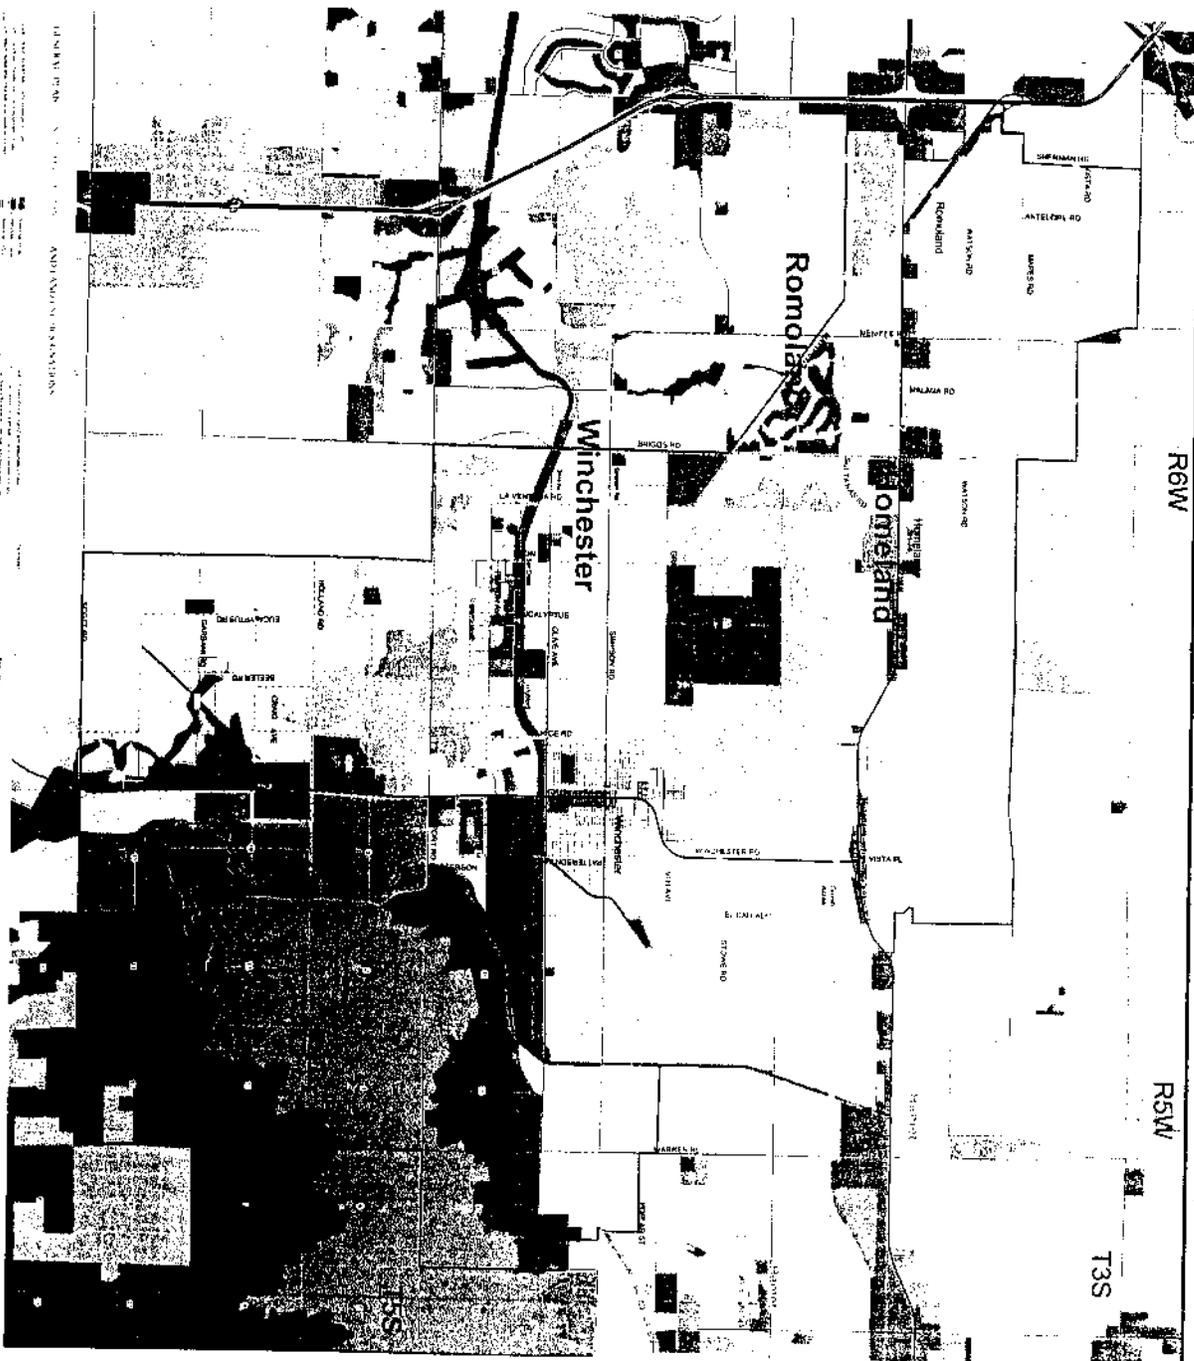

Attached please find the Riverside County Hearing Draft General Plan revised land use map for the Harvest Valley/ Winchester planning area received from Riverside County on December 20, 2002. The revised land use map reflects revisions to the Draft General Plan and corresponds with information received from Aleta Lawrence, Riverside County Planning Director, during a conference call on November 8, 2002.

Ms. Laurence indicated that a major revision to the Hearing Draft of the General Plan was being prepared as a result of public hearings conducted for the General Plan update. Ms. Laurence further indicated that as part of the revision, the proposed land use designation for the IEEC site would be changed to Heavy Industrial, a continuation of the site's existing Riverside County General Plan Industrial land use designation.

If you have any questions, please call Jim Bartridge, the Energy Commission's Project Manager, at (916) 651-8839.
