Welcome to CEQAnet, the online searchable environmental database of the State Clearinghouse within the [Office of Planning & Research](#).

CEQAnet contains key information from all California Environmental Quality Act (CEQA) documents submitted to the State Clearinghouse for state review since 1990. For information on documents submitted prior to 1990, email us at state.clearinghouse@opr.ca.gov. In addition, some federal National Environmental Policy Act (NEPA) documents are submitted to the Clearinghouse for state review; key information from these NEPA documents is also contained in this database.

The CEQAnet database provides summaries of Environmental Impact Reports (EIRs), Negative Declarations, Environmental Impact Statements, and other types of CEQA and NEPA documents. The summaries include the project title, project location, lead agency name, contact information, and project description. At this time, CEQAnet does not provide the full text of any environmental documents.

Because not all environmental documents are submitted to the State Clearinghouse, CEQAnet is not a comprehensive database of all CEQA and NEPA documents in California.

LET US KNOW WHAT YOU THINK! Please let us know if you have questions or comments regarding this information service by e-mailing the State Clearinghouse at state.clearinghouse@opr.ca.gov. This is a brand new service; we expect to make refinements and improvements based on your input. Please let us know how to make this more user friendly.
