

**PALOMAR ENERGY PROJECT (01-AFC-24)
CEC STAFF DATA REQUEST NUMBER 100**

Technical Area: Visual Resources

Response Date: April 8, 2002

REQUEST:

Please provide a conceptual landscaping plan that shows the location of all berms, trees, and other landscaping.

RESPONSE:

Palomar has filed an objection to this data request. The available conceptual landscaping plan for the entire ERTC, including Planning Area 1 (the Palomar site), was provided to the CEC as part of the Data Adequacy Responses in February 2002. No additional landscaping data is yet available. Palomar expects additional information to be provided in the City EIR process.
