

**PALOMAR ENERGY PROJECT (01-AFC-24)
CEC STAFF DATA REQUEST NUMBER 78**

Technical Area: Visual Resources

Response Date: April 8, 2002

REQUEST:

Please clarify whether or not any aboveground facilities would be required for the pipelines including pump stations and/or valves. If so, please identify their locations and describe the facility characteristics including dimensions.

RESPONSE:

Development and operation of the proposed reclaimed water supply and brine return pipelines would require no aboveground facilities along the pipeline route.
