

T.K.D. Associates, Inc.

2121 E. TAHQUITZ CANYON WAY, SUITE 1

PAIM SPRINGS, CALIFORNIA 92262

TELEPHONE: 760 320-8899

FAX: 760 327-8575

LANDSCAPE CONCEPT:

The landscape concept will incorporate the use of native plants that are indigenous to the area and that will withstand the high winds that are characteristic of the site.

Our concept is to limit disturbance to the natural landscape as much as possible. Native *Acacia greggii* will be used in the background to create large mounding shrub masses that help screen the facility from the road. Ironwood trees, which can reach 25' in height, will be used as foreground trees. Mounded accent areas will include boulders and desert agaves along the street frontage. Native *encelia* and creosote bushes will be planted to blend the site with the surrounding desert.
