Attn: Mr. Larry E. Larsen

RE: Natural Gas Pipeline Interconnect Request for Lancaster Energy Facility #1

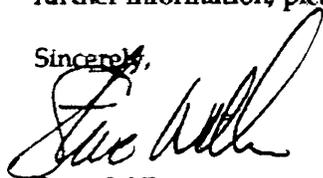

Dear Mr. Larsen:

I am formally requesting an application to interconnect a new 24 inch transport pipeline with the Kern River interstate transmission system in the vicinity of Mojave, California, as discussed earlier. This new pipeline will be owned and operated by Electricity Provider, Inc. (EPI) and will supply the fuel required to operate the EPI owned Lancaster Energy Facility #1 electric power plant in the City of Lancaster.

The Facilities Agreement is attached.

Please review this agreement for completeness, and advise if you require any additional information. Due to the urgent need to site this new electric generation plant, we are requesting an expedited review and approval of this application. If you have any questions or need any further information, please call me at (714) 505-0874.

Sincerely,

Steve Wilburn
