

Pio Pico Energy Center

Site Visit and Public Hearing

Docket No. 11-AFC-1

Proposed Project Application

On February 10, 2011, Pio Pico Energy Center LLC submitted an Application for Certification (AFC) to the California Energy Commission seeking permission to construct and operate a nominal 300 megawatt natural gas-fired, simple-cycle generating facility called the Pio Pico Energy Center.

Commission Committee overseeing this project:

Carla Peterman, Commissioner
Presiding Member

Karen Douglas, Commissioner
Associate Member

Hearing Officer

Raoul Renaud

Project Manager

Eric Solorio

CALIFORNIA
ENERGY COMMISSION

Proposed Location

The project site is located on approximately 10 acres of former industrial land on Alta Road near the intersection of Calzada de la Fuente, in the Otay Mesa area of unincorporated San Diego County.

Public Site Visit and Informational Hearing

You are invited to join a Committee of the Energy Commission on a bus tour to the proposed site and to attend an informational hearing/scoping meeting. The applicant will describe the project and provide transportation to see the location of the proposed power plant. At the hearing, the Energy Commission will describe the project review process and ways to become an effective public participant. The public is encouraged to attend to learn about the project, the process and public involvement opportunities.

Monday, May 16, 2011
