California Energy Commission
DOCKETED
11-AFC-3
TN # 68202
OCT 24 2012

March 22, 2012

California Energy Commission
Eric Solorio, Project Manager
1516 Ninth Street
Sacramento, CA 95814-5512

Subject: Quail Brush Generation Project
Application for Certification Docket No. 11-AFC-3

Dear Mr. Solorio:

Enclosed for inclusion in the above-referenced docket are public comments and signed petitions voicing opposition to this project.

Approximately 675 online-signed petitions, 112 online comments, and 234 hand-signed petitions are herein submitted. More are being received daily as the public becomes made aware through the efforts of concerned citizens and those additional petitions and comments will be submitted to you in the coming weeks.

Thank you for adding these to the docket at your earliest opportunity.

Respectfully,

STOP THE SANTEE POWER PLANT.ORG

Petition to the Staff of the California Energy Commission

We demand that the evaluation of the proposed Quail Brush Power Plant so seriously affecting our community, our children, our parks and schools be evaluated not at the applicant's suggested 43% usage but at the 100% this incursion will be used.

Our health, our property values, and the lives of our children and elderly depend on your decision.

Warning: a power plant is planned at Mast & Hwy 52. The Project includes:

11 9.3 Mega-Watt natural gas-fired engines;

11 48 inch x 100 foot tall stacks;

18 months of construction impact and extra traffic on the corner of Mast and West Hills Parkway.

Petition to Oppose the Power Plant in our Santee Neighborhood

Warning: a power plant is planned at Mast & Hwy 52.

There is a Wed. Jan. 25 4:15 pm public hearing at Mission trails Visitor Center, where these Petitions will be delivered and your neighbors will testify. The Sunset Greens HOA located south of the project has taken a position opposing this project on Jan. 10, 2012.

<u>From the application for the Quail Bush Project Application to the CA Energy Commission:</u>

The Project includes-

11 9.3 Mega-Watt natural gas-fired engines;

11 48 inch x 100 foot tall stacks;

Engines enclosed in a 400 ft. x 60 ft. x 30 ft. tall building;

Approximately 2,200 ft. of 8 in. natural gas pipeline located across Mast south of the landfill entrance;

18 months of construction impact on the corner of Mast and West Hills Parkway.

Petition to Oppose the Power Plant in our Santee Neighborhood

Warning: a power plant is planned at Mast & Hwy 52.

There is a Wed. Jan. 25 4:15 pm public hearing at Mission trails Visitor Center, where these Petitions will be delivered and your neighbors will testify. The Sunset Greens HOA located south of the project has taken a position opposing this project on Jan. 10, 2012.

<u>From the application for the Quail Bush Project Application to the CA Energy Commission:</u>

The Project includes-

11 9.3 Mega-Watt natural gas-fired engines;

11 48 inch x 100 foot tall stacks;

Engines enclosed in a 400 ft. x 60 ft. x 30 ft. tall building;

Approximately 2,200 ft. of 8 in. natural gas pipeline located across Mast south of the landfill entrance;

18 months of construction impact on the corner of Mast and West Hills Parkway.

Petition to the Staff of the California Energy Commission

We demand that the evaluation of the proposed Quail Brush Power Plant so seriously affecting our community, our children, our parks and schools be evaluated not at the applicant's suggested 43% usage but at the 100% this incursion will be used.

Our health, our property values, and the lives of our children and elderly depend on your decision.

Warning: a power plant is planned at Mast & Hwy 52. The Project includes:

11 9.3 Mega-Watt natural gas-fired engines;

11 48 inch x 100 foot tall stacks;

18 months of construction impact and extra traffic on the corner of Mast and West Hills Parkway.

Petition to the Staff of California Energy Commission

I Oppose: *11 huge engines-noise in the night; *Eleven 100 ft. high smoke stacks-cancer in the air;*Potentially dozens of 90 ft. high power line towers-a visual blight; *18 months of construction-more traffic delays; *Millions of gallons of drinking water-used for construction and to cool the massive engines; *Mast Blvd. blocked to put in a gas pipeline-traffic jams day and night; *Property values sunk even lower-no way out with an underwater home that can't be sold.

Sirs: We demand that the evaluation of the proposed Quail Brush Power Plant so seriously affecting our community, our children, our parks and schools be evaluated not at the applicants suggested 43% usage but at the 100% usage this incursion will be used; our health, our property values, and the lives of our children and elderly depend on your decision.

Adrian adrianvanrav[redacted]hotmail.com 72.214.28.242	Submitted on 2012/03/12 at 2:59 pm Peaker plant my eye! This thing is a monster. They are trying to replace the Chula Vista plant and stick it right on our doorstep. You better believe this monster is going to be running 24/7. Anyone who doesn't believe that is a fool. This piece of junk has the potential to wreck Mission Trails park and Santee. What a bone headed idea. Put it somewhere smarter, this is a terrible choice of location.
Amber Alison [redacted]com 159.53.174.144	Submitted on 2012/03/13 at 2:41 pm i SENT AN EMAIL IN OPPOSITION TO THE EMAIL ADDRESS PROVIDED!
Annie nguyen [redacted] 144.189.100.28	Submitted on 2012/02/20 at 6:51 am We need to fight hard against this project. It will be harmful for our neighbor and our town in both environmentally and economically

beci C becic@cox.net 68.7.130.54	Submitted on 2012/03/04 at 9:56 pm Yes we can win this if everyone is on board ! I didn't even know about this until today when a concerned neighbor came to my door (Thank You !)
Bernie Brown abb7685@yahoo.com 205.242.229.67	Submitted on 2012/03/13 at 3:05 pm Sent e-mail to planning commission – this is such a bad idea, and those that are pushing it are insulated & out of touch. It is not an issue of "Not In My Backyard" – it's just a fact that there are many reasonable alternatives to this plan as is being proposed – Bernie Brown
Beth Frice passion_4life@homail.co m 72.220.213.133	Submitted on 2012/02/29 at 5:50 pm Environmental noise regulations usually specify a maximum outdoor noise level of 60 to 65 dB (A). This is unacceptable!
Bill Cooper bccoper@cox.net 70.181.175.238	Submitted on 2012/02/29 at 9:09 am The city of San Diego has used and abused Santee citizens enough! They placed a large dump on the border that nauseates our families on warm days—and they want to expand it! They want to build the Castlerock housing development to collect taxes for San Diego, but over-leverage Santee city resources such as schools and roads without any cost compensation. Now they want a power plant to spew increased pollution, further decrease property values in a depressed economy, and create a visual eyesore in our beautiful community. It's time to send a message that enough is enough.

Dave B. [redacted] 70.230.201.110	Submitted on 2012/03/13 at 10:14 am Where can I get a sign I can (legally) plant in my front yard? I live on a busy street not far from the proposed site.
Dave B. bswarm@hotmail.com 75.8.126.163	Submitted on 2012/03/13 at 6:05 pm Email sent.
David [redacted] 206.13.97.114	Submitted on 2012/03/13 at 2:46 pm I have submitted an email. What is the planning commission thinking? Obviously none of them live in Santee nor use Mission Trails park.
Dennis [redacted] 72.199.131.5	Submitted on 2012/02/28 at 5:17 am More info – what type of power plant is it? How "clean" is it as far as power plants go?
Diana Deckert [redacted] 72.199.165.157	Submitted on 2012/03/06 at 11:18 am I care deeply about this cause and your Tues mtg suits my sched best. However, I feel compelled to point out that Pinn Peak's also has a smokestack spewing out pollution. One might think that grilled steak smoke would be scrumptious, but it gets a little old after about 2 days, when you live a block downwind in a 2nd floor condo. I'm sure I could find scientific data to tell me how dangerous it is; I don't feel the need when I find black soot on my plants and patio. I can't open my door or windows to cool off with the nice afternoon/evening ocean breeze coming through the pass, because that's when they fire up the grill! I ate there once and asked for a discount – they laughed! You'll excuse me if I don't patronize them much during the mtg.

Jack Tade [redacted] 75.80.129.158	Submitted on 2012/03/14 at 9:16 am Planning Commission, "I oppose the rezone of Open Space to Industrial for the 'Quail Brush Power Plant' abomination. Mission Trails Regional Park is one of the largest urban parks in the United States. This power plant and the noise and pollution it would create would destroy the tranquility of this park. It is too close to West Hills High School. It would cause pollution of the Santee El Cajon Valley. The California PUC allowed SDG&E to build a transmission line from Imperial Valley that caused great environmental harm and disturbed the Eagles nesting. Why is a power plant necessary in the first place wasn't the transmission line supposed to supply the needed power? If California wants to be a leader in preserving the environment, Please deny the CPA initiation!" Jack Tade
Jamea Yaeger [redacted] 68.7.104.209	Submitted on 2012/03/13 at 4:25 pm Emailed my oppostion and posted info to my Facebook page
James Ackley [redacted] 72.220.221.37	Submitted on 2012/03/01 at 9:07 am I asked Mr. Bartholow to ask Cogentrix the following questions 1. What are the operating standards for exhaust emissions at 100% operation with all engines on line, how many lbs of CO2,NOX,Ozone and other environmental issues ? (take in consideration of the nearby Little League field and West Hills high school and the elderly with respirtory issues) 2. Are these engines water cooled or air cooled ? 3. Where will the water come from ? 4. What is the alternat fuel if natural gas is curtailed and what will that exhaust emissions be at 100% operation ? 5. Will the facility be EPA tested with both fuels at 100% with all 11 engines reunning before being given an operating permit ? 6. Will the plant ever go into 100% operation, meaning all 11 engines running ? 7. Why were so few Santee citizens notified that this project was being considered ? (people closest to the proposed site have no idea this was coming)
Author	Comment

Author	Comment
	8.Is there an alternate site that this facility could be placed ? 9. Has an Impact Study been done on the proposed site to make sure there are no Insian artifacts,endangered insects,birdsand plant life? 10. Jennifer [redacted] 72.220.113.13	Submitted on 2012/03/13 at 2:52 pm No to the Quail Brush peaker power plant.
Jess [redacted] 132.239.199.252	Submitted on 2012/03/13 at 3:46 pm Emailed.
Joe Spencer [redacted] 68.7.135.78	Submitted on 2012/03/05 at 6:20 pm In regards to the rally on Monday the 12th….I think you should seriously consider spreading out to other locations other than that isolated area. If you want to get the word out to the mass….then spreading out is ideal. While there is a great deal of traffic out that way…only a select part of Santee goes that way…those with students at West Hills….and those who live right in that area. I would also target the intersection of Cuyamaca and Mission Gorge for sure.,,,,maybe consider Mission Gorge and Magnolia…. Maybe Mast and Magnolia…… Just a suggestion to be more effective…..
Joe Spencer [redacted] ail.com	Submitted on 2012/03/13 at 9:52 pm In regards to the City Planning Commission Meeting…note something VERY important: Time allotted to each speaker is determined by the Chair; however, comments are
Author	Comment

Author	Comment
68.7.135.78	limited to no more than three (3) minutes total per subject regardless of the number of those wishing to speak. So…no matter how many show up….we get three minutes TOTAL. I would HIGHLY suggest someone who speaks well in front of a crowd….be the sole speaker….AND that they prepare a typed TIMED three minute speech to read. This does not mean only one person shows up….EVERYONE should show up for support.
Kat [redacted] m 68.8.180.95	Submitted on 2012/03/10 at 5:24 pm I live within 2 miles of the proposed site. How come I only found out about it now?
Kevin [redacted] 68.8.176.202	Submitted on 2012/02/25 at 1:53 pm I In reply to Doug. Here is a report from UC Berkeley that concluded a 3-7% decline in property value within 2 miles of a power plant after construction: http://faculty.haas.berkeley.edu/ldavis/pp.pdf
Laura [redacted] 68.7.5.131	Submitted on 2012/03/14 at 5:26 pm E-mailed
Leslie [redacted] m 64.149.113.130	Submitted on 2012/03/13 at 3:05 pm I just sent my opposition to the SD Planning Commission. I sent it to my friends in neighborhing areas (San Carlos) and asked them to send it as well. Not being San Diego residents, I'm not sure how much we'll effect their vote. San Diego voters need to be speaking out as well.

Mia [redacted] 199.207.253.96	Submitted on 2012/03/13 at 3:22 pm I emailed the my opposition.
Mike [redacted] m 68.7.143.9	Submitted on 2012/03/11 at 1:03 pm I am against this Power Plant as well
Mike Press [redacted] 72.192.175.175	Submitted on 2012/03/14 at 10:07 pm Hello- I am just getting involved in this. **Just found out about it thanks to the yard signs**. Anyway, i wrote to the mayor aof Santee and he told me the following. I am in no way dissing him. Just wonder if it is as hopless as he makes it sound. And who do we go after. Below is what he wrote; Mike, I oppose the power plant and I believe a majority of our Council members do as well (who would want a Powerplant on their border?). However there are some issues beyond the City of Santee's control: 1. The Powerplant is going to be in the Landfill. 2. The Landfill is located in the City of San Diego. 3. The City of San Diego cares nothing about your, or the Cities protests. 4. The City of Santee has recently been stripped of One Million Five hundred thousand dollars by the State of California, due to the ending of Redevelopment

Author	Comment

Author	Comment
	Districts. 5. Because the City (400 other Redevelopment Districts as well) has been turned upside down financially, we do not have the estimated $250,000 to fight the Powerplant in court. 6. If we did go to court and spent the $250,000 plus, in legal fees, we have a 95% chance (based upon legal opinion) of losing the lawsuit and only a 5% chance of getting minor concessions. That is the way I see this issue right now. The City of San Diego is the 400 pound gorilla on our front doorstep. The California Energy Commission is the other 800 pound gorilla at our backdoor. As you know I never mince words, the City of Santee will be rolled over on this one, with no hope of stopping a Powerplant that most people want. Even if some people don't want it built, a vast majority are happy to have it in a corner of a landfill, away from everybody but our neighbors at the west end of Santee. Respectfully submitted, Randy Voepel Mayor, City of Santee
Mike Walker [redacted] 68.7.79.4	Submitted on 2012/02/17 at 9:59 pm we don't "need more power plants", we need to reduce demand and move to rooftop solar generation. If anyone thinks they will be able to sell their house if they are within 2-3 miles of this 400′ long 100′ high PP they are dreaming. The applicants very own info says there will be a 1 mi sound impact zone. We need your comments in the record Please email Eric Solorio the Project Manager for the Quail Brush Generation Project (natural gas power plant) adjacent to Mission Trails Park, we need your comments in the record ESolorio@energy.state.ca.us mailto:ESolorio@energy.state.ca.us the decision makers will read your comments.
ML Ruiz [redacted] 68.7.189.108	Submitted on 2012/03/12 at 12:59 pm A Power Plant next to these beautiful hills and gorgeous Mission Trails? What are they thinking?

MONIKA [redacted] 174.65.84.105	Submitted on 2012/03/14 at 4:36 pm APPALLING, WE MUST STOP THIS!!
Norman [redacted] 72.199.160.103	Submitted on 2012/03/13 at 5:23 pm We sent in two letters of opposition. Hopefully, we can also contact local chapters of the Sierra Club, hiking clubs, outdoor organizations, etc., to let them know how this power plant would visually impair the park. The noise alone would ruin anyone's daily hike, walk or simple visit to the park. Tragedy! Tell everyone you know–they don't have to live in the Santee area. We've been visiting Mission Trails park long before we were Santee residents.
Pat [redacted] 72.199.229.116	Submitted on 2012/03/13 at 3:02 pm I just sent an e-mail to the opposition
Pat Hurley x [redacted] 68.105.88.2	Submitted on 2012/03/15 at 10:31 am First Name: Pat Hurley Comments to the CEC: This power plant must be stopped. The health of the people, pets and wildlife, and future of the city of Santee are at stake. Please do not approve this project.
Pat Sartausky [redacted] 72.199.244.130	Submitted on 2012/02/13 at 2:24 pm There needs to be a lot more people involved in halting this project. Not only is this a health issue, but
Author	Comment

Author	Comment
	also a safety issue which will impact many of us here in Santee. We as ctizens can put a hold on this by banning together. Tuesday, Feb. 14th at 5:45 P.M. is when everyone should be at Pinnacle Peak for this meeting. There are other areas which would be more suitable for something like this instead of placing it in a bedroom community such as Santee. I would like to know the name of the person that left the 2 sided flyer at my door with a phone # in order for me to contact them.
Patty Kay Mooney [redacted] 68.7.122.42	Submitted on 2012/03/13 at 4:16 pm I have emailed my opposition. My husband will do the same, and so will my friends. What more can we do to prevent this? It's an unbelievable travesty. This is within a few miles from my home, and butting up against Mission Trails Park where thousands of visitors go for peace of mind and the views of pristine wilderness. How did this plan get so far down the line (September construction????!!!!!) without people knowing about it?????? This is an election year. I'd like to know the names of the people behind this.
Patty Kay Mooney [redacted] 68.7.122.42	Submitted on 2012/03/13 at 5:18 pm I In reply to tetemcc. I just got back from delivering the flyer to some of my neighbors. I am now going to the foot of Cowles Mountain to deliver some more to the avid hikers. I am sure they will be disappointed, shocked and even hurt to learn about this. It's not necessarily sleeping that most people do – many have their noses to the grindstone and are so exhausted by the end of their work day that they don't know which end is up. Do you think there is a chance we can actually stop this?
Patty Kay Mooney [redacted] cpp@newuniquevideos.com 68.7.122.42	Submitted on 2012/03/13 at 7:17 pm I In reply to Norman. You are so right, Norman, Mission Trails park is the "backyard" of every San Diegan. Therefore it is an issue for all San Diegans, not just those who live in Santee. This is a gift that we must all protect.
Patty Kay Mooney [redacted]	Submitted on 2012/03/15 at 1:29 pm We should all be cognizant of all the machinations necessary to remove the Chula Vista power plant.

Author	Comment
ey1 x [redacted] om 68.7.122.42	Technology is constantly evolving. We need to move away from these old-fashioned facilities. South Bay knows it better than anyone. http://www.portofsandiego.org/real-estate/2485-port-and-chula-vista-work-to-take-down-south-bay-power-plant.html
[redacted] **Peter Adams** [redacted] com 72.199.167.71	Submitted on 2012/02/07 at 1:05 pm I just wrote the following to both Supervisor Jacob and councilwoman Marti emerald. Feel free to use any part or all of it. We must make our opposition known to the decision makers: Ms. Jacob: I am writing you to notify you of my opposition to the Quailbrush power plant that has been requested to be built essentially in my front yard, the corner of Mast Blvd and West Hills Parkway. Although this looks like a great place for the tax payers of the city of San Diego (being hidden by Mission Trails Park and its hills) it is directly across the street from several neighborhoods in Santee, including mine. All the on going pollutants, noise, traffic during construction and all the other negatives that come with such a project will affect hundreds of homes and literally across the street. Not to mention the on going pollution that will be generated affecting the students of West Hills High School less than a quarter of a mile downwind on Mast Blvd. With our property values already sunk and many of us stuck with under water mortgages, this will only make a bad situation worse. Believe me no one will want to by a home or town home across the street from a 11 one hundred foot high toxic spewing smoke stacks. We need to be encouraging developers to make alternative green power generation local to their developments and begin getting away from the idea of large fossil fuel burning power generation plants. Don't do this to the city of Santee, and your neighbors. I am requesting in a strong a manner as possible that you oppose the construction of this power generating station at this location. Do not allow the city of San Diego to make any zone changes that would allow this plant to be built. Do not make any land deal that would place the plant in on any part of Mission Trails Park. This is a gem to the city and the county and should be protected! Regards, Peter J. Adams Santee, CA 92071

Peter Adams padams7153@gmail.com 72.199.167.71	Submitted on 2012/02/09 at 4:20 pm If you are a condo/town home owner in Santee or bordering Mission Trails Regional Park, I would like to speak to you. I am coordinating all the HOA's in the immediate area of this proposed plant to get them to oppose the building of this plant. I will be happy to make a presentation to your HOA's board or instruct you on how to do this. The more Associations we can get on record opposing this project the better. Please email me directly at the address below for further information. Peter J Adams Stop The Santee Power Plant HOA Coordinator padams7153@gmail.com mailto:padams7153@gmail.com
Peter Adams padams7153@gmail.com 72.199.167.71	Submitted on 2012/02/12 at 9:47 pm Great info. Any chance there is one for the Air pollution map?
Retha Knight retha_knight@yahoo.com 68.7.79.34	Submitted on 2012/02/15 at 10:44 pm 11 smoke stacks from hell spewing carbon monoxide, carbon dioxide and other cancer causing air pollutants into the air. The Quail Brush gas generated power plant is not just at the city dump in some secluded place called Sycamore Canyon. The Quail Brush power plant is a couple blocks from Santee little league baseball fields, West Hills High School, hundreds of homes and will adversely affect the entire Santee valley. It also borders Mission Trails Regional Park which includes Cowles Mountain and scenic parts of the San Diego River. This treasured natural parkland belongs to every citizen in San Diego county. There is no argument that will take away the adverse health affects this proposed power plant will have on the population surrounding it. No matter how much land is promised to expand Mission Trails Regional Park the toxic pollution will still be there! Our elected public servants on the San Diego and Santee city councils should stand up and protect the citizens and park lands against the obvious pollution Cogentrix will bring if this power plant is built.

retha knight [redacted] 68.7.79.34	Submitted on 2012/03/13 at 10:48 pm I e-mailed my note of opposition. Retha
Retha Knight [redacted] 68.7.79.34	Submitted on 2012/03/18 at 10:40 am According to the application for certification, the power plant is projected to operate up to 3,800 hrs per year (or approximately at 43% of the time). The projected EAF (equivalent availability factor), based on the SDG&E Power Purchase Agreement (PPA), is estimated to exceed 98 percent in the summer months (June-September), and exceed 94 percent in the non-summer months. During these times the power plant can operate 7 days per week, 24 hr per day. We are talking about eleven 100 ft smokstacks,11 separate, parallel trains of generators, each w/an independent engines. That round structure next to the smokestacks on the right must be the 20,000-gallon capacity aboveground storage tank for the Fire Water that they will store onsite. (based on Information from Quail Brush application for certification. This power plant DOES NOT belong on the border of MISSION TRAILS REGIONAL PARK or anywhere near a population! The San Diego Planning Commission must deny the request to rezone the East Elliot Community Plan from OPEN SPACE to INDUSTRIAL! If this 22 acre parcel is rezoned then the Quail Brush 100 MW power plant would be EXEMPT FROM ENVIRONMENTAL!
Rhiannon McHugh [redacted] 68.7.79.34	Submitted on 2012/03/14 at 12:18 pm I emailed my opposition.
rleow [redacted] 72.199.166.214	Submitted on 2012/03/13 at 5:45 pm I can't believe this! After all the talk about joining with the San Diego River Parks Foundation that this is happening! What a blight on the beautiful Mission Trails Regional Park! I'm sure the park rangers have an opinion about this as well. The only power we need is the Power To THE PEOPLE!

Roslind Varghese [redacted] 72.199.230.220	Submitted on 2012/03/14 at 11:45 am I In reply to Diana Deckert. Diana, We'll have a new location next week, so don't give up on attending this very important meeting to connect with others who want to fight this monster. Please keep checking this site for the update on location. Roslind
rudy reyes [redacted] 174.65.85.207	Submitted on 2012/02/28 at 10:35 pm Quail Brush Generation Project ISSUES IDENTIFICATION REPORT This report has been prepared by the California Energy Commission staff to inform the Quail Brush Generation Project (QBGP) Committee and all interested parties of the potential issues that have been identified in the case thus far. These issues have been identified as a result of staff's discussions with federal, state, and local agencies, and our review of the QBGP Application for Certification, docket number 11-AFC-3. The Issues Identification Report contains a project description, summary of potentially significant environmental issues, and a discussion of the proposed project schedule. Staff will continue to address these issues and inform the Committee about progress made towards their resolution by submitting monthly status reports to the Committee. PROJECT DESCRIPTION

Author Comment

Author	Comment
	The Quail Brush Generation Project is proposed to be developed on a 21.6-acre parcel, located in the City of San Diego, California. The proposed site is located west of the City of Santee, south of the Sycamore Landfill and north of State Route 52. The proposed project is a nominally rated 100-megawatt (MW) intermediate/peaking load, electrical generating facility that would employ a set of eleven (11) natural gas-fired, reciprocating, Wartsila engine generators. The major features of the project include the following: • Eleven (11) nominally rated 9.3 MW (gross) Wartsila model 20V34SG, natural gas-fired, reciprocating engines; • Eleven (11) separate, state-of-the-art, air pollution control systems representing Best Available Control Technology (BACT); • Eleven (11) approximately 48-inch diameter x 100-foot tall stacks, each with a separate continuous emissions monitoring system (CEMS); • Acoustically engineered building enclosing all 11 reciprocating engines; • Closed loop cooling system consisting of multiple fan-cooled radiator assemblies outside of the engine building; • One (1) 20,000 gallon urea storage tank; • One (1) 600,000 gallon fire water tank and associated fire water system; • One (1) 10,000 gallon domestic water storage tank; • Onsite 230kV facility switchyard including switchgear and the main voltage step-up transformer, circuit breakers, and disconnects; • Approximately 1 mile of 230kV single-circuit electric transmission line between the project and the anticipated point of interconnection (POI) to the existing San Diego Gas & Electric (SDG&E) Miguel to Mission 230kV transmission line situated west of the plant site; • New SDG&E 230kV utility switchyard at the POI configured as a linebreak of the existing SDG&E 230kV transmission line that will include circuit breakers and disconnects, an access road; and • Approximately 2,200 feet of 8-inch diameter natural gas pipeline lateral between the project site and the existing SDG&E 20-inch diameter high pressure natural gas pipeline located across Mast Avenue from the landfill entrance and associated onsite metering station. If the proposed project is approved by the Energy Commission, the applicant plans to construct the project in approximately 18 months. Construction of the generation plant, from mobilization, through site preparation and grading, to the start of commercial operation, is proposed to take place from March 2013

until June 2014.
POTENTIAL MAJOR ISSUES
This portion of the report contains a discussion of the potential major issues that staff has identified to date. Discovery has not yet taken place and potentially interested parties have not yet had an opportunity to identify their concerns. The identification of the potential issues contained in this report is based on comments of other government agencies received to date and on staff's judgment of whether any of the following circumstances will occur:
• Potential significant impacts which may be difficult to mitigate;
• Potential areas of noncompliance with applicable laws, ordinances, regulations or standards (LORS);
• Areas of conflict between the parties; or
• Areas where resolution may be difficult or may affect the schedule.
The table on the following page lists all the subject areas evaluated and notes those areas where major issues have been identified. Although most technical areas are identified as having no potential issues, it does not mean that an issue will not arise in the future. In addition, disagreements regarding the appropriate conditions of certification may arise between staff and applicant that will require discussion at workshops and potentially during subsequent hearings.

Major Issue Subject Area Major Issue Subject Area
No Air Quality No Noise and Vibration
No Alternatives No Paleontological Resources
Yes Biological Resources No Public Health
No Cultural Resources No Socioeconomics
No Efficiency and Reliability No Soil Resources
No Facility Design No Traffic and Transportation
No Geological Resources No Transmission Line Safety
No Hazardous Materials No Transmission System Engineering
No Worker Safety and Fire Protection No Visual Resources
Yes Land Use Yes Waste Management
No Project Description No Water Resources
This report does not limit the scope of staff's analysis throughout this proceeding, but acts to aid in the identification and analysis of potentially significant issues that the QBGP project poses. The following discussion summarizes major issues, identifies the parties needed to resolve the issue, and outlines a process for achieving resolution.

Author	Comment

Author	Comment
	BIOLOGICAL RESOURCES BACKGROUND AND MAJOR ISSUE The QBGP may impact the Quino checkerspot butterfly (QCB), a federally listed endangered species. Surveys for the QCB were not conducted prior to submission of the Application for Certification. According to the U.S. Fish and Wildlife Service QCB survey protocol, surveys are required for this project. Surveys can start as early as February 2012 and continue until late May or early June. The project's nitrogen oxide (NOx) emissions are a source of nitrogen deposition that may indirectly and cumulatively impact regional QCB habitat and occurrences. To develop the staff assessment and conditions of certification, staff requires protocol level surveys to confirm the presence or absence of QCB at the project site and in the region. Potential impacts and related mitigation measures cannot be determined until the protocol surveys are complete. Staff will continue to work with the U.S. Fish and Wildlife Service, the California Department of Fish and Game, the city of San Diego and the applicant to address the issue. LAND USE MAJOR ISSUES The proposed QBGP is inconsistent with several of the city of San Diego's laws, ordinances, regulations, and standards (LORS). The project currently conflicts with: the East Elliott Community Plan, which designates the site as Open Space; the General Plan, which designates the site as Park, Open Space, and Recreation; and the Municipal Code, which designates the site's zoning as single-family residential (RS-1-8). In order for the project to be in compliance with these LORS, the applicant would need to obtain a community plan amendment, a general plan amendment, and a rezone from the city of San Diego. The proposed QBGP is also located within the city's MultiSpecies Conservation Program (MSCP) Subarea Plan, with which it is incompatible. In order for the project to be in compliance with the Subarea Plan, the applicant would need to obtain from the city a boundary line adjustment of the Multi-Habitat Planning Area to exclude the project site. Further potential issues with applicable local LORS include: the project's compliance with the city's Environmentally Sensitive Lands Regulations; and the project's consistency with the Mission Trails Regional Park Master Plan Update, which identifies a trail at the northeast corner of the project site. Energy Commission staff will continue to investigate these issues and coordinate with the city of San Diego's staff regarding the city's review of the applicant's proposed amendments, rezone, boundary adjustment, and project compliance with other city LORS. With regard to the Mission Trails Regional Park Master Plan Update, Commission staff will coordinate with the city's Park and Recreation Department and the Mission Trails Regional Park Citizens Advisory Committee on this issue.

Waste Management
BACKGROUND AND MAJOR ISSUE
The QBGP's proposed site is located on the former Camp Elliot. Camp Elliot was a former marine, navy, army and air force training base. Camp Elliot is included in the Defense Environmental Restoration Program for Formerly Used Defense Site (FUDS). Previous live-fire artillery training at Camp Elliot has resulted in the presence of military munitions (MM), including munitions and explosives of concern (MEC), within the East Elliot Camp area. MEC consists of two distinct types of military munitions with unique explosive safety risks: unexploded ordnance (UXO) and discarded munitions (DMM). UXO are items that were fired or dropped but remain unexploded and thus present a hazard to people who use the area. The United States Army Corps of Engineers (USACOE) has conducted various surface and subsurface clearances in the Camp Elliot area since 1984. The USACOE is currently developing strategies to prepare a remedial investigation and feasibility study in the Camp Elliot area in the near future. Staff has recently started participating in meetings with USACOE concerning the remedial investigation and feasibility study, and staff is in the process of determining if there are additional federal permits or procedures that could potentially delay staff's proposed schedule for the QBGP.
SCHEDULING
Following is staff's proposed schedule for key events of the QBGP project. Meeting the proposed schedule will depend on: the applicant's timely response to staff's data requests, the timing of the San Diego Air Pollution Control District's (SDAPCD's) filing of the Final Determination of Compliance, determinations by other local, state and federal agencies; and other factors not yet known. The SDAPCD will need to provide a Preliminary Determination of Compliance (PDOC) and a Final Determination of Compliance (FDOC). Prior to the publication of the Preliminary Staff Assessment (PSA), staff prefers to have a PDOC from the air district; and an FDOC before staff publishes the Final Staff Assessment (FSA).

Sandy [redacted] 68.7.73.142	Submitted on 2012/03/05 at 9:07 pm I In reply to Erin. Yes! Attending San Diego City Council meetings and emailing/writing/phoning is a fabulous place to start!
Sandy [redacted] 68.7.73.142	Submitted on 2012/03/08 at 8:58 pm I In reply to Joe Spencer. Great ideas! We're starting here as our "coming out" rally, and you're right, we can target other places until this power plant is dead.
Sandy [redacted] 68.7.73.142	Submitted on 2012/03/12 at 8:46 pm I In reply to Tom V.. Hi, I found some maps in the Mission Trails draft master plan (June 2011). Others may have a better source, perhaps from the city or the CEC, but these maps noted here do show property owners: http://www.ktuaprojects.com/mtrp/mtrpdoclist.html#PW3 Also, review Steven Goldfarb's letter to the CEC (Feb. 21) at the CEC – Quail Brush site (see link at home page, and go to Documents, Intervenors/Others) for history of ownership/zoning of this land. ###
Sandy [redacted] 68.7.73.142	Submitted on 2012/03/14 at 7:58 pm I In reply to rleow. There are flyers/petitions on the Spread the Word tab if you can take this on.
Sandy K. [redacted] x sandykuntz@yahoo.com 68.7.80.235	Submitted on 2012/02/04 at 3:31 pm The power plant company professes transparency, but what good is transparency when coupled with invisibility? The proposed power plant site is on San Diego property, but Santee is immediately adjacent to and downwind. The company could have provided real transparency from the start by informing us via signs at Santee gateways (such as West Hills Blvd./Mast Blvd) and a flyer mailed to Santee residents. This hasn't happened, so it's up to us to get the word out NOW!

☐	x [redacted] 137.131.96.16	this proposed plant at the December 2011 Mission Trails Regional Park Citizen's Advisory Committee Meeting. Recently, this SSPP member applied for a vacated seat on the MTRP CAC, in order to serve as a true public watchdog, but it appears that a shoe-in may have been seated on the committee. But that's only one instance of curious activity – and also curious inactivity – that we've encountered. Our elected officials and government at all levels have shown no compunction about the hushed/rushed aspect of this proposed plant. As we work furiously against the clock at this "late hour" to get answers & prepare to stop this: They are passing the buck and each pointing in a different direction, while Sempra/Goldman Sachs-Congentrix sail smoothly forth through the Calif Energy Commission (CEC), San Diego City/County departments, MTRP and City of Santee. Well, at least the CEC has given some honest advice: prepare to aim at a moving target. Please remain involved and spread the word. This is what goes on, when the public "sleeps".
☐	**tetemcc** [redacted] 137.131.96.16	Submitted on 2012/03/13 at 12:32 pm PLEASE DO EXACTLY AS INSTRUCTED ABOVE. EMAIL DIRECTLY OR FAX. LEAVING A REPLY HERE DOES NOT CONVEY YOUR OPPOSITION TO THE SD PLANNING COMMISSION. After doing this, please leave a comment to tell us you've submitted an email or fax and let's tally up and ramp up the public support to STOP THIS REZONING BY THIS THURSDAY!
☐	**tetemcc** [redacted] 137.131.96.16	Submitted on 2012/03/13 at 1:34 pm Emailed as instructed. Thank you for organizing this public defense. Everyone tell 10 others to do this today! Keep up your spirits & the great work and WE WILL WIN!
☐	**tetemcc** [redacted] x [redacted] 68.7.75.53	Submitted on 2012/03/13 at 9:32 pm I In reply to Patty Kay Mooney. ABSOLUTELY & NO OTHER FOCUS IS ALLOWED TO PREVAIL UNTIL WE DO—AS ONE BLOGGER WROTE, WHAT WE NEED IS POWER TO THE PEOPLE! WE WILL WIN!

Thomas Tibbitts [redacted] 70.166.81.40	Submitted on 2012/02/11 at 12:17 pm We do not want this plant.
Tina Nagel [redacted] 68.7.72.53	Submitted on 2012/02/26 at 3:06 pm Thank you for doing this!
Tom V. [redacted] 68.7.79.79	Submitted on 2012/02/08 at 9:06 pm I object to the zoning. There has to be an appropriate industrially zoned site somewhere near both power lines and a natural gas line. As far as "smoke belching smokestacks", this is proposed to be a natural gas plant, which burns more cleanly than any other fossil fuel, so that's a bit of a red herring. The exhaust will probably just look like shimmering air and/or steam. One photo shows dead cattle, which is also a bit "over the top". If it's needed by the energy plan, build it. Just please put it in a more appropriate area.
Tom V. [redacted] 68.7.79.79	Submitted on 2012/02/13 at 8:33 pm I In reply to Tom V.. So Jeff, I'm not clear. Are you against the placement of the plant, the fact that they're burning natural gas, or the fact that a non-green power generation plant is being built at all? I see these as three separate issues and am curious what your broader perspective objections really are. For me, it's just placement, I'm fine with natural gas, and think forcing green energy is kind of silly.

william [redacted].com 68.8.180.152 http://stopthesanteepow erplant.org/sign- the-petition/	**Petition Signup** SDG&E just built a new Sunrise Power link transmission line which gives them 2. They don't need this monstrosity with 1100ft. smoke stacks!!! Not in our community and certainly not in the proposed build site next to sensitive habitat. (Mission Trails Park). This is a poorly thought out plan and didn't include the residents input prior to coming up with the planning. Every resident in Santee I have talked to rejects this plan and cannot believe that they have picked this site, when SDG&E just erected it's new Sunrise Transmission Link. Certainly they could place this powerplant in the desert next to the new lines just built where nobody would object to this cause nobody would be harmed in so many ways such as health concerns, and property values, and contamination of a sensitive habitat area. --- **Last Name** cook **Address** [redacted]	2012-03-18 @ 4:30:07 PM

Robert [redacted] 68.7.184.242 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** RE: Quail Brush Generation Project Dear Mr. Solorio, The purpose of this letter is to bring attention to the Quail Brush Generation Project and the major concerns that it brings to the residents of the City of Santee. The proposed project site by the applicant, Genco, LLC and the parent company Cogentrix Energy, LLC who are working in collaboration with both San Diego Gas and Electric Company, and the City of San Diego, purports to have over 21 acres of County designated parklands rezoned for a project that is generally reserved for a heavy industrial area. The scope and size of the proposed Quail Brush Generation Project very simply, does not belong within yards of any community's residents, adjacent schools, playgrounds, or anywhere within the immediate vicinity of a heavily used pristine regional park. It is the hope of the residents of Santee and San Diego East County, that you are accurately able to collect, analyze, and visualize exactly what is at stake especially for this local community of over 55,000. The project proposed by Genco-Cogentrix, SDG&E, and the City of San Diego demonstrates a lack of responsible civic minded planning from every aspect there is to consider, with the exception for being the most profitable solution. The vast majority of citizens realize there is a need for a long term energy solution because of limitations in the reliability of current renewable green energy resources. However, economic sense should never be allowed to be placed ahead of the health or the socioeconomic well being of the people intended to be served. The land may technically belong to the City of San Diego, but there is no question the facility that is being proposed would immediately become the City of Santee's nightmare with irreversible consequences. If the Quail Brush Generation Project is not misguided enough	2012-03-18 @ 2:28:59 PM

From	Message	Date

From	Message	Date

on the rezoning condition alone, consider the proposed site includes installing: 11 natural gas fueled internal combustion engines, 20 pistons each with cylinders exceeding 13 inches in diameter, a combustion displacement of 44,323 cubic inches per engine cycle, multiplied by the output of 11 engines with exhaust smoke stacks each 4 feet in diameter, towering 100 feet in height, and perched on the slope of a downwind southeast facing hillside. This giant landmark industrial facility with it's smoke plumes would be situated literally at the front doorstep of the City of Santee, Mission Trails Regional park, and the neighboring homes and schools. Even if City of San Diego public authorities approve the proposed land amendments for the Applicant, it clearly remains an improper land use issue with an abundance of causes for drawn out expensive legal actions that all San Diego County tax payers cannot afford. Combined with the highly contrasting and striking visual impact, noise, the pollution that would be forced into the air directly overhead of Santee and the enclosed valley downwind, should all be viewed as major problems, as well as numerous other negative environmental and financial impacts on our citizens, property values, and wildlife. These long term consequences would in fact be realized by several East County communities if the proposed Quail Brush Generation power plant is constructed. The proposed site should not be considered an appropriate location for the Quail Brush Generation Project. Please vote: "NO PROJECT ALTERNATIVE that uses conservation as a strategy" If the City of San Diego and SDG&E remain intent on installing this extremely large power plant, I am calling on all the principles including our civic leaders with critical decision making authority who may be working behind the scenes, to closely examine more suitable sites already in established heavy industrialized areas, such as near the City's Miramar Landfill where it is virtually uninhabited. It should be old fashioned common sense that proposing a facility of this nature and of this magnitude in a residential zone on top of homes, parks and schools is simply not the right thing to do, or should even be remotely up for consideration. Respectfully, Robert Cook

Patricia 72.199.149.91 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** Please put a stop to this project on this site. The health of the residents of Santee and El Cajon are depending on it. QUAIL BRUSH COMMUNITY PLAN AMENDMENT INITIATION –PROJECT NO. 2011-04 The Quail Brush project conflicts with the following documents: the East Elliott Community Plan, which designates the site as Open Space; the General Plan, which designates the site as Park, Open Space, and Recreation; and the Municipal Code, which designates the site's zoning as single-family residential (RS-1-8). Cogentrix wants to amend the Community and General Plan by initiating a rezoning from residential to industrial in open space area that was designated to be protected. What is the specific justifiable criteria for initiating this change? Why is the city of San Diego even considering making changes to these plans and it's own codes at the expense of the surrounding communities and federally endangered species that live there? Is the building of the 11, 100 ft stacks, using technology that is dated and inefficient, far more important than our quality of life, health of our seniors and children, and the peace and tranquility that the Mission Trails Regional Park has provided since around 1962? Since the park was a 2000 acre gift from the Federal Government to be used for open space supporting the residential community, shouldn't the city of San Diego at least entertain the thought of supporting the federal government's mandate to move away from fossil-fuel based energy and instead look to solar energy? Solar panels on rooftops will harness surplus galore since San Diego gets abundant sunshine year round. We OPPOSE this initiation and demand its withdrawal. We, the people are watching our cities' actions closely now and will find it suspect should the city of San Diego's Planning Commission vote to allow this permanently damaging change so that a power company can place their plant in a location that is most convenient and cost effective for them so they can increase their gross profits at the communities' expense in every conceivable way.	2012-03-18 @ 1:47:55 PM

Debra [redacted]il.com 68.7.3.68 http://stopthesanteepowerplant.org/contact/	**[Stop the Santee Power Plant] Contact** Hi, thanks for all the info, I tried emailing this to everyone but some of the boxes are full and others bounced back. I am mailing one to Randy Voepel himself. I also emailed this to the main address so hopefully it goes through, thanks again! 3-17-2012 Debra Carroll 9236 Lapeer Ct Santee CA 92071 RE: Santee Power Plant PROTEST Randy Voepel 10601 Magnolia Ave. Santee, CA 92071 Dear Randy I'm sure this comes as no surprise to hear from a resident but I feel I must stress the urgency of this issue. I don't think it's right to throw in the towel and say Santee basically has no control over what San Diego does with regard to the proposed power plant. Someone needs to ask us what we think but since nobody cares about what Santee Businesses and homeowners have to say, I thought I'd give it a shot. I have been in Santee for almost 10 years and the neighborhood has grown over the years into a very lucrative and highly desired place... to live and work, right now. We, like many dreamed of raising our children in a nice community. To quote you we are the "La Jolla of the East" except when it comes times for prisons, dumps and power plants? If this plant	2012-03-17 @ 3:11:05 PM

comes to town I will be forced to sell my home that we put our blood, sweat, tears, and most importantly MONEY into for the last 9 nine years! You can assure that what I say goes for all families in Santee, and what a difference it would make if we all wrote to our local congress of protested this hideous proposal. I am one of those people who write to voice my opinions and concerns because unfortunately the public has to get involved when congress does nothing to protect us. It is a horrible shame that they could allow anything like this to be so close to housing and schools/business's etc. when statistics show increased levels of radiation from these types of plants that seriously compromise the health of the towns' people. In other words we have a higher chance of getting cancer. I already lost my brother recently and then my mother to cancer. The concerns of the people need to be addressed. This is OUR town! I AM FROM MASSACHUSETTS (which is why I have no problem speaking up) WE HAVE A POWER PLANT IN A TOWN CALLED PLYMOUTH. Due to that plant, housing has always been dirt cheap and nobody I ever knew wanted to live in Plymouth. The town has a bad rep and housing costs are very low compared to towns immediately next door. You can do the research yourself and see how obviously affected a town becomes once there is a power plant is there. You say you oppose the plant but are you willing to fight for us? What sense does it make to allow harmful chemicals to poison your people? Let's remember who pays your salary and who you city council members work for! WE THE PEOPLE have more power when we stand together. THIS POWER PLANT WILL WILL WILL (did you hear me?) severely depreciate the values of homes and businesses in Santee leaving residents stuck in homes that nobody will want after the plant is built. In turn this will affect the whole economic strength that we have worked for so long and so hard to build here in Santee. And any hope of increasing home values over the years for current home owners will be lost. Everything is about money and it's sickening as it is that /what's most important to us is never as important as the money the city will make if they let the plant be put there. We are stuck with a prison, and a stinky landfill, now you want to give us all cancer and destroy our towns pride, and value. Are those of us in Santee, especially people like me in Carton Hills going to somehow be compensated for the difference in the home values once they drop as a result of this plant? Of course NOT! A power plant has no business

		being anywhere near a residential neighborhood. It's unhealthy and PLAIN STUPID!!! And you can bet as an avid writer in this community I will not only will I be organizing protests but I will be writing letters to everyone. This a very serious matter and needs to be dealt with in such a manner rather than a haphazard, inconsiderate way. There is plenty of land that is in San Diego county that is away from homes. OUR HOME VALUES WILL DROP and we WILL be living in an unhealthy environment. Of course this probably means nothing to people who don't live here. The sad reality is that in San Diego residents get maced in the face and thrown in jail for standing up for their rights which is a violation of our civil rights and freedom of speech. I am disgusted at this proposal and hope somebody comes to their senses. READ THIS LINK TO SEE HOW LIVING NEAR A POWER PLANT PUTS YOU AT A HIGH RISHK OF DEVELOPING CANCER. As if you don't already know. STATISTIC PROVE IT, WE CANNOT LET THIS PASS! The city has a responsibility to its people you need to do the right thing which is stand up for us, this is your town and your show. We voted you in because we knew you have what it takes to fight and I certainly hope you stand up and do right by our community with regard to this issue. We have asthmatics in the family and I have a 3 year old child who has right to breathe clean air. My 70 year old father left MA to come here specifically for the better air quality, now we don't know what we'll do. http://ije.oxfordjournals.org/content/17/1/1.full.pdf Sincerely Debra Carroll

Craig [illegible].ail.com 68.8.195.123 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** There must be a lot of money filling officials pockets and campaign coffers for this patently idiotic idea of building a natural gas power plant within a wildlife preservation area and hazardous fire zone, very close to a high school and negatively affecting the entire population of 56,000 people in Santee, CA. Then I come to find out that the slimy tentacles of Goldman Sachs, the purveyors of economic piracy, are lurking under the depths of this deal. Now I'm certain there will be several pay-offs to promote this monstrosity along with plenty of "expert" testimony and biased impact studies that prove opposing concerns are unfounded. Then, there is the unmitigated hypocrisy of allowing this perpetual spewer of toxic waste and noise pollution into people's backyards while putting the screws to much smaller and temporary polluters via restrictive regulations and fines. I guess if you have enough money to throw around you can get a free pass on environmental compliance. The nonsense of this proposed project is so clear that only graft and revenue enhancement can explain it moving forward. --- **Last Name** Noel **Address** [illegible]ve	2012-03-15 @ 12:04:20 AM

Marsha MacDonald [redacted]@cox.net 68.7.76.234 http://stopthesanteepowerplant.org/contact/	**[Stop the Santee Power Plant] Contact** I wrote the below to the planning commision today re the power plant. It is heartbreaking to think that such a power plant would be located near such a pristine nature preserve, let alone near homes, and a high school. I simply do not understand. When I moved to Santee 12 years ago, I was not informed that the house I was about to purchase was soon going to have the 52-freeway next to it. Later, when certain issues surrounding the freeway were brewing, I wrote to the city of Santee about the concerns of real people living in the neighborhood off of Prospect, that we all felt so forgotten simply because we lived in an area zoned for light industry near an airport and next to a run-down trailer park. But we mattered! I wrote of my chronic illness, my father's recent death, losing my job of 9 years on the heels of divorce. I wrote that we have real lives like anyone and were not just to be forgotten in the matter of the freeway. The response I got was something I will never forget. Such warmth, care and gratitude that I reminded them that the few homes in my area were inhabited with people, just like those on the city council, just like those at Caltrans. They then realized and thanked me for reminding them that we are real people with real lives, real feelings, real hearts, real aspirations, real dreams. After that, we were much more included in discussions and decisions about the 52 freeway	2012-03-14 @ 8:37:54 AM

		coming through. The issue of the powerplant is an even greater issue. It made sense for the 52-freeway to be situation where it is! And it runs next to my house now! So I undertand it in spite of the trauma I went through first learning of it's planned placement, then later being on disability when Caltrans said they were going to take my house for the freeway after all (they ultimately could not do so due to budget) BUT it makes NO sense for the powerplant to be placed where it is currently planned to be situated (other than who owns the land there). It should be in an area away from a pristine nature preserve--away for deer, coyotes, rabbits, etc, let alone the people who hike, bike, and run there. It should be away from houses and those with health issues. It should be in a heavy industry area (there is one in east santee/west lakeside where I can picture it perfectly). It just baffles me how anyone could put this powerplant where it is slated to be built. I doubt anyone planning this would want it near their home. The 52-freeway had to go where it was to connect to ohter freeways and due to it's planned area largely zoned for light industry. It made sense. But the power plant and it's toxins near a school, nature preserve, and homes? It is a heartbreaking, mind-boggling, outrage. Thank you, Marhsa Jean MacDonald Molecular Biologist marshajmac@cox.net I oppose the rezone of Open Space to Industrial for the 'Quail Brush Power Plant' abomination. Please deny the CPA initiation!	
	Becky [redacted]@santeesd.net 69.171.160.33 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** I work in santee and my children go there. I dont want to breath toxins plus it will make the city ugly and lower properties, not to say; how healthy is it?? to have those toxins in this valley.. you want more energy put wind turbines healthier and cleaner.. this will the worst idea anyone has came up with... Come on people get you act together now.. This is are health, furture, and its not this!!!!! COME UP WITH ANOTHER SOLUTION!!!!! --- **Last Name** Lindner **Address** [redacted] Santee, ca 92071	2012-03-14 @ 8:37:10 AM

Teresa [redacted]@cox.net 68.7.27.113 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** I am a teacher for the Santee School District and I live near the proposed location. We live in a community that is tight-knit. Our community has a love for the schools and the city. We are proud of our parks and recreation.. We are growing in business and are becoming a place to go for shopping and eating. This power plant can not be approved. It is a horrible choice and will effect animals, plants, and the people that live in Santee. I beg you to reconsider your location. **Last Name** Boulais **Address** [redacted]	2012-03-13 @ 10:08:46 PM
Magdalena [redacted]gmail.com 68.7.7.24 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** Two years ago my family bought a house in Santee. We moved to this community because of the tranquil area and its close proximity to Mission Trails Regional Park. This proposed power plant would severely impact the sensitive land in and around Mission Trails, and Sycamore Canyon. This power plant has no place in our community. It would only increase noise levels and introduce harmful contaminants into our community that I have grown to love. I respectfully ask that you stop any future plans to build the Quail Bush Power Plant.	2012-03-13 @ 10:04:58 PM

Patty [redacted].com 68.7.122.42 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** Mission Trails is part of San Diego's true " Golden Triangle" - Cowles Mountain and Lake Murray being the other two corners of that triangle. My husband and I have enjoyed hiking and mountain biking this area over the last 30 years. We found a house nearby so we could go there at least twice a week for our emotional and physical well being. Over our decade here, the population using our park has grown exponentially. Thousands of people come every weekend. A power plant right next to Mission Trails is a very ill-conceived (greedy) idea. I am going to alert my neighbors about it this very minute. **Last Name** Mooney **Address** [redacted]	2012-03-13 @ 4:26:02 PM

Chris [redacted] 207.114.139.254 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** I live just around the corner from where the proposed site is, and feel that it is too close to our neighborhoods, schools, and nature areas. The noise and emissions would affect not only the people well being, but would also affect the serenity of the nearby Mission Trails preserve. I have already experienced the affects of the having the Sycamore waste/landfill that has brought odor and airborne dirt to my home, and roadside trash spillage and traffic to our roads. To have more odor and noise coming from that area is not acceptable. Find another location away from my area. **Last Name** Pedersen **Address** [redacted]	2012-03-13 @ 10:01:52 AM

Bryan [redacted] 64.73.227.194 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** We do not need a Power Plant in Santee. With the age of technology and the evolution of "clean energy" options, a power plant is NOT needed. If it is absolutely necessary, the location of this power plant should be put in an area where is doesn't impact the environment and the communtity. The high school is right across the street and the harmful pollutants will create health issues for our youth. I, as a Santee resident and Local General Contractor that builds Solar Energy projects, strongly disagrees with this plan and will fight it to the end. --- **Last Name** McCarthy **Address** [redacted]	2012-03-13 @ 8:14:29 AM

Danielle [redacted] 99.44.38.94 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** There is absolutely no way that this will happen without a fight from the people of Santee. I am 100% AGAINST this power plant and will literally camp out in the proposed build site if they try to build this. It makes me so sad to think that people do not appreciate the beauty of Mission Trails, and by putting a power plant right next to it, the natural beauty and excitement of the area will be ruined. **Last Name** Marriott **Address** [redacted]	2012-03-12 @ 8:11:20 PM
Zbigniew [redacted] 70.181.189.217 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** I can't believe that someone wants to build a power plant right at the edge of the valley where two cities, Santee and El Cajon, are located. This plant will generate toxic air pollution, which will stay in the valley where 150,000 people live. On hot, windless summer days, it's already bad enough to breathe pollution generated by cars. Adding even more pollution from this industrial project would create a health risk for all Santee and El Cajon residents. Therefore, this project must be stopped! **Last Name** Toronczak	2012-03-12 @ 8:02:52 PM

Patricia [redacted] 72.199.199.32 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** First of all, I am shocked that this entire project was approved and begun so secretly. I only recently learned about this issue. Building this plant so close to my and my children's home, and near schools, is completely unbelievable! The beauty of Mission Trails Park will be devastated and will endanger plants, animals, and of course people!! Please help stop this destructive project. **Last Name** Melton **Address** [redacted], CA 92071	2012-03-12 @ 4:20:44 PM
Heather [redacted] 66.185.162.190 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** I have been a Santee resident for more than 30 years—more than that I am a homeowner and a parent of three children who go to West Hills and Carlton Hills. I absolutely do not want my family living nearby a power plant! I do not want to see, smell, or hear the power plant where I, my family, and my neighbors live! It's bad enough that we have the dump and the women's detention facility—now a power plant! This is an OUTRAGE!	2012-03-12 @ 4:11:44 PM

Nicholas [redacted] m 98.175.246.12 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** I live less than 2 miles from the proposed plant and my family and I are COMPLETELY against this. I am amazed at how quiet this has been kept, I assume intentionally. The neighborhood is mobilizing to stop this palnt which should be placed in a much more industrial area. Who really wants to send their children to a school that has a power plant across the street? Who wants to have property near a power plant? Upon these beautiful rolling hills, across from serene public schools and adjacent to a large state park is not the place for this. Please fix this now!!!! --- **Last Name** Dei **Address** [redacted]	2012-03-12 @ 1:13:02 PM

☐	**Arleen** [redacted] 70.181.172.98 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** Law abiding, working, and mortgage paying homeowners are currently struggling in a current economy that is eroding the ratio of their mortgage to house values. Many have already turned upside down making what was once an investment toward retirement, now a liability and a financial albatross around their necks. The further addition of a reduction in house values, again by means beyond the control of the wage earning, mortgage paying homeowner, is absolutely abhorrent.	2012-03-12 @ 11:41:43 AM

Rebecca [redacted] 68.7.17.59 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** I have lived in Santee for most of my life, and love it here. I have a family of my own now, a young, growing family. I don't want my children to grow up breathing in more toxins than what is already in the air; which is bad enough as is. Why make it worse? I don't want to leave this beautiful community. It's surrounded by nature. To have that masked over by the pollutants this plant will produce is a shame. If San Diego wants a power plant so bad, why not make it a green power plant; i.e.: a solar panel farm of some sort? If they really want a pollutant then don't place it near another city that will be affected by it's output and not able to do much about it. If you don't want it in your backyard why force it upon someone else? Why not place it in an open area clear of residential homes, businesses, and schools. It's not fair to be laden with the power plant on top of the Sycamore Landfill (which we had to fight), the Gillespie Air Field, and MCAS. They need to start thinking about other cities not just their own. Afterall, we ARE in their county, they should respect us as well as consider us a part of their city too. --- **Last Name** Wells **Address** [redacted] CA 92071	2012-03-11 @ 12:19:59 PM
Todd [redacted] 70.181.189.159 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** Prevailing winds from the coast WILL drive pollutants into the Santee/El Cajon valleys where they will become trapped resulting in serious air pollution hazards to these and other communities in and around the valleys. Also noise pollution will ruin the local Mission Trails park for visitor throughout the region. This noise will also drive out wildlife in the area. Please move this plant to another, less populated area. You can plan on heavy litigation and other efforts targeted at	2012-03-11 @ 12:16:31 PM

Alyssa [redacted] 76.216.248.160 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** I strongly oppose this. Do we still live in the dark ages here?? Why are we still destroying the earth when there are other options? And putting a harmful power plant anywhere is ridiculous, let alone right next to a school and a beloved regional park. The proposers of this project should all be foreced to live within a mile of this plant. As for me, I am already planning a move far, far away from Santee, just in case this goes through. What a shame.	2012-03-11 @ 11:38:11 AM

Terry [redacted] 74.178.152.180 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** I've just spoke to my brother who lives in San Tee and has for a number of years. He's made his home there, raised his his children, and not too long ago met his new wife. In listening to him, I'm concerned about this power plant. I say what about peoples heath and breathing in all the chemicals that will be in the air? This is a BAD idea and built near schools, parks, and neighborhoods.! I seriously hope and pray that you will stop this and quit thinking about your own pockets. He told me the buyer lives in North Carolina and this will produce 100 or so jobs. Oh, and 9 or so full time upon completion. Oh, YEAH, let's applaud this N.C. guy. After all, the aftermath won't effect him. Tell you what I'm going to	2012-03-11 @ 11:33:11 AM

Rachel [redacted] 70.181.173.234 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** I grew up at this address since 1974. My husband and I bought this house from my parents 12 years ago in 2000. I had planned to live in the beautiful city of Santee always. This proposed power plant is very near my home. The proposed power plant is even closer to my childrens school. I am horrified that a power plant which will expose people to substancial air and noise pollution which has unknown health effects would even be poposed so close to homes and schools. We as Santee residents already deal with the landfill, the flight patterns from Miramar and Gillespie Fields, and now you want to add a power plant to that mix. You are absoutly right NOT IN MY BACKYARD. Especially when as the crow flies you are talking less that two miles away from my home. If this proposed power plant moves forward, I am forced to make a decision to leave the city that I know and love, to find a home in a safer enviroment for my families health and well being. **Last Name** Klindt **Address** [redacted] CA 92071	2012-03-10 @ 8:19:29 PM

☐	**Isaac** [redacted] m 152.131.10.194 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** This project absolutely needs to be evaluated at the 100% usage. We're talking about placing this plant within on mile of the "Third Jewel in the City of San Diego Park System", Mission Trails Park. Mission Trails is one of the largest urban parks in the United States and contains a lake and the San Diego River. I am completely disgusted as a resident that the city would even consider this prospect. This project is also within one mile of Kumeyaay Lake Campground, West Hills Park and Carlton Oaks Golfcourse, and less than two miles to Santee Lakes. **Last Name** Walrath **Address** [redacted], CA 92120	2012-03-08 @ 10:30:39 AM

Charles [redacted] 68.7.79.34 http://stopthesanteepowerplant.org/sign-the-petition/	**Petition Signup** I have live in Santee and know the that the proposed Quail Brush Peaker power plant location is a bad choice. I as well as my community do not want a power plant put in so close to schools and residences. The power plant will cause air pollution,noise,and traffic congestion. It will take our precious water to cool the 11 recipercating engines. The power plant will also disturb and change the enviroment and eccosystem around our Mission Trails Regional Park. The night sky will no longer be dark enough to view the stars with the lighting that is to go on top of the 90 foot tall smoke stacks. I request you to sign the petition and do	2012-03-03 @ 7:43:30 AM

William [redacted] 70.181.175.238 http://stopthesanteepowerplant.wordpress.com/sign-the-petition/	**Petition Signup** I am opposed to building this power plant at the proposed site. The city of San Diego has "dumped" undesirable elements of infrastructure at the border of Santee to avoid the uproar of its own inhabitants. They placed a dump on the border that they wish to expand--therby further nauseating Santee Citizens, and now they want a power plant that will place energy in the grid that will not prevent Santee brown outs, regardless what they claim. It's time to stop the madness, if they want a power plant, build it in 'La Jolla West'. --- **Last Name** Cooper **Address** [redacted]	2012-02-29 @ 8:50:22 AM

Justin [redacted] m 68.7.3.204 http://stopthesanteepowerplant.wordpress.com /sign-the-petition/	**Petition Signup** This power plant will be detrimental to the future development of Santee. The environmental reprocussions alone make this proposal ridiculous. Has no one considered the affect this will have on Mission Trails and West Hills High School located within 1000yds of the location? As a Santee homeowner, and father of a 6 month old, I think that this is the worst possible thing that could potentially happen to our delicate landscape and "up-and-coming" status. Families will no longer see Santee as a viable option to purchase homes causing a direct impact on the local economy. Families already living in Santee will relocate to	2012-02-27 @ 5:07:15 PM

Ron [redacted] 76.216.248.134 http://stopthesanteepowerplant.wordpress.com/sign-the-petition/	**Petition Signup** This proposed plant, under the current plan, will adversely impact the residents of Santee as well as the many visitors to Mission Trails Regional Park. Rather than the proposed location south of the landfill, moving the location to the north or west side of the landfill will cause less impact and would be a better solution. As a taxpayer, homeowner, and resident of Santee (West Hills & Mission Gorge) I am highly opposed to the plans for this plant but would support alternative locations. **Last Name** Kinkade **Address** [redacted]	2012-02-26 @ 6:32:24 PM

Bernard & Laura Hoyt [redacted] 72.207.117.38 http://stopthesanteepowerplant.wordpress.com/contact/	**[Stop the Santee Power Plant] Contact** Mr. Eric Solorio, We moved into a beautiful new housing development in Santee, Ca. 11/2 years ago. Nothing was mentioned or made known to any of the new homeowners, to my knowledge, about any Power Plant. We lived four miles west from my new home for 22 years and had not been aware of any Power Plant development in this area. You can imagine how outraged our community, as well as many others are about this shocking news! How can something of this magnitude be "exempt from having an environmental impact report" done when there are thousand of people a few miles from the site location? (according to the statement on the CAL Gov Energy Comission Website). So many contradictions in this report. Why build for 100-megawatts when only 50 -megawatts will be used (if this happens) and how does this "support wind and solar and other renewable energy sources"? Why not make this a wind resource area and provide local jobs and a clean nontoxic energy source? Where is the "11/16/2011 Commission Accepts AFC data adequate report" ? Bye the way, does anyone know that this is a military fly zone & the largest city nature reserve? Know this, the residents of Santee and surrounding San Diego communities are outraged and will put up resistance to the Quail Bush Power Plant location. Bernard & Laura Hoyt	2012-02-17 @ 11:54:46 AM

Retha [redacted] 208.54.39.181 http://stopthesanteepowerplant.wordpress.com/sign-the-petition/	**Petition Signup** We do not this power plant spewing toxic air in our community. Sycamore Canyon is not a remote area by a landfill. I have lived for 22 years on the border of Mission Trails Regional Park and can see the proposed power plant site from my backyard. The health of my family,neighbors and community will all be severly impacted if this unnecessary power plant is built. That is the only real guarentee the CEC or Cogentrix can give us if allowed in our community. **Last Name** Knight **Address** [redacted], CA 92071	2012-02-16 @ 12:41:14 AM
Roslind [redacted] 137.131.72.33 http://stopthesanteepowerplant.wordpress.com/sign-the-petition/	**Petition Signup** I live in the area and can say that other than through a coworker, no agency (city, state, pertinent organization) has informed the people living in the area about this proposed plant and the implications. Is this how serious matters such as this should be handled? I am sure creative thinking is needed to place this plant in a area far, far away from any residential negative impact. I hold this commission to a higher standard. Please do not disappoint.	2012-02-15 @ 12:27:39 PM

Pat [redacted] 72.199.244.130 https://stopthesanteepowerplant.wordpress.com/sign-the-petition/	**Petition Signup** Everyone needs to be at the Pinnacle Peak Tuesday Feb. 14th at 5:45 P.M. for this meeting. Safety and health issues are the main concern of this project that is trying to be shoved down our throats. When it comes to things like this that other areas refuse to consider to have in their backyards, it seems that they always try to put it in Santee. Well, enough is enough as this is a bedroom community and we have a beautiful little city which is not going to be destroyed by greedy developers and ruthless bureacrats. It's all about money and nothing else. Let's work together to defeat this. --- **Last Name** Sartausky **Address** [redacted]	2012-02-13 @ 2:49:13 PM

☐	**Peter Adams** [redacted] 72.199.167.71 http://stopthesanteepowerplant.wordpress.com/contact/	**[Stop the Santee Power Plant] Contact** I have a questions regarding the placement of the plant itself: Does the placement land wholly in the city of San Diego or Santee? I am concerned that if it is within the city of San Diego, this is more push something undesirable on the the citizens of Santee. Because they can't stop it as they are not San Diego taxpayers, and the taxpayers of San Diego won't care as it is being built on the other side of the hill from San Diego.	2012-02-07 @ 11:34:45 AM
