Public Comment regarding the proposed Quail Brush Generation Project

I would like to make the following written comment. I understand that my comments will be docketed and may be posted on the Energy Commission’s website and be available to the public.

Cogentriix wants to violate every law that pertains to it, building a gross, poisonous plant that will not only be a blight on the environment but a danger to the health and well being of plants, animals and humans.

TechnaTec has submitted forms on CD to the CEC. How will this information be opened for the public?

What is Cogentriix’s plan in a fire to deal with the up to 26,000 gal. of oil. It was not noted in their fire plan.
