Subject: Permit Applications for the Redondo Beach Energy Project, located at 1100 North Harbor Drive, Redondo Beach, CA 90277 (Facility ID# 115536)

Dear Mr. O'Kane:

The South Coast Air Quality Management District (SCAQMD) received permit applications for the Redondo Beach Energy Project (RBEP) on November 21, 2012. Based on our review of the initial application package it was determined that additional information was required in order to deem the applications complete. The SCAQMD issued letters dated December 21, 2012, February 8, 2013, April 12, 2013 and June 7, 2013 requesting additional information. With the last submittal of additional information received on June 25, 2013, the SCAQMD has determined that the application package is now complete. The reference application numbers for this project and our initial review determination are provided in the table below:

545065	Title V/RECLAIM Significant Revision	Deemed Complete
545066	SCR/CO Catalyst	Deemed Complete

545071	SCR/CO Catalyst	Deemed Complete

Please be aware that clarification of and more detailed information may be needed during the course of our full engineering review and evaluation. Your cooperation is essential to the timely review of the applications. Also please note that although the RBEP applications are deemed complete, AES is still required to submit a retirement plan for AES Redondo Beach Boilers 6 and 7. SCAQMD approval of this retirement plan will be required prior to start of construction of the RBEP.
