DATE	SEP 27 2007
RECD.	SEP 28 2007

Project Location: The Russell City Energy Center is located in the City of Hayward.
County: Alameda

Project The RCEC Project is a 600-megawatt (MW) combined-cycle plant, using two Siemens Westinghouse "F-class" combustion turbine generators (CTGs) equipped with dry, low oxides of nitrogen combustors and steam injection capability; two heat recovery steam generators (HRSG); a single condensing steam turbine generator and a wet-dry plume abated cooling tower and support equipment. The project is expected to take approximately 25 months to complete with commercial operation anticipated to begin by the summer 2010.

On September 26, 2007 the California Energy Commission approved the above-described project amendment pursuant to a regulatory program certified by the California Secretary of Resources under Section 21080.5 of the California Public Resources Code.

1. The project [will will not] have a significant effect on the environment.
2. Mitigation measures [were were not] made a condition of approval of the project.
3. A statement of Overriding Considerations [was was not] adopted for the project.

The Commission docket files containing the final Commission Decision and other information regarding the project are available to the public at: California Energy Commission, 1516 9th Street, Sacramento, California, 95814. The final Decision and other information regarding the project is also available on the Commission's web site--www.energy.ca.gov.
