

G:\gis\projects\58\00161046\aprs\map1_geology_topo_2000scale.apr

Legend:

Proposed Facilities:

- Plant Site
- IID Substation
- Plant Construction Lay Down Area
- Construction Parking
- L-Line Interconnection
- IID Midway Interconnection
- Production Well Pad
- Injection Well Pad
- Well
- Production Well Line
- Injection Wells Line

L-# and M-#

- Milepost

Existing Facilities:

- L-Line
- Road

Geologic Units

- Alluvium
- Lake Deposits
- Recent Volcanics (Rhyolite)

Projected Trace of Deep (-2000 ft) Main Blind Faults within Geothermal Reservoir

Mineral Resources Borrow Site (Pc) = Pumice

NOTES: Well dimensions are approximate. Wells are not to scale. OB = Obsidian Butte OBI = Obsidian Butte Injection

URS

SOURCES: SUREMAPS (USGS 7.5 Minute Quads Niland, Obsidian Butte), URS (approximate proposed site and transmission lines), TIGER (existing transmission lines and railroads), GEOTECHNICS INC. (geology).

**SALTON SEA UNIT 6
GEOLOGIC MAP OF PROJECT VICINITY
(MAP 1 of 5)**

1000 0 1000 2000 Feet
SCALE: 1" = 2,000' (1:24000)
