Notes:

1. Hold image approximately 18 inches from the eye to provide life-size scale.
2. A row of trees fully obstructs the view of the proposed geothermal plant site from the residence. The photograph was taken on the opposite side of the trees to provide a worst-case viewing condition (i.e., In the absence of vegetative screening).

SENSITIVE VIEWING AREA #1
SIMULATION VIEW OF PROPOSED PLANT SITE IN WORST-CASE PLUME CONDITIONS
FROM RESIDENCE NEAR NATIONAL WILDLIFE REFUGE
SALTON SEA UNIT 6
