Subject: Filing of Notice of Decision in compliance with Public Resources Code Section 21080.5 and Title 20, California Code of Regulations, Section 1768

Project Title: San Francisco Electric Reliability Project

Energy Commission Docket Number: 04-AFC-1

Energy Commission Contact Person: William Pfanner, Project Manager

Telephone: (916) 654-4206

Project Location: The San Francisco Electric Reliability Project (SFERP) is located on a 4-acre parcel south of 25th Street and approximately 900 feet east of Illinois Street in the Potrero District of the City and County of San Francisco.

County: San Francisco

Project The SFERP will consist of a nominal 145-megawatt (MW) simple-cycle plant, using three natural gas-fired General Electric LM 6000 gas turbines and associated infrastructure. Construction of the SFERP, from site preparation and grading to commercial operation, is expected to take approximately 12 months with commercial operation anticipated to begin in mid 2007. The City and County of San Francisco intends to operate the facility 24 hours per day, 7 days per week, for up to 12,000 hours per year total for the three combustion turbines.

On October 3, 2006 the California Energy Commission approved the above-described project pursuant to a regulatory program certified by the California Secretary of Resources under Section 21080.5 of the California Public Resources Code.

1. The project [will will not] have a significant effect on the environment.
2. Mitigation measures [were were not] made a condition of approval of the project.
3. A statement of Overriding Considerations [was was not] adopted for the project.

The Commission docket files containing the final Commission Decision and other information regarding the project are available to the public at: California Energy Commission, 1516 9th Street, Sacramento, California, 95814. The final Decision and other information regarding the project is also available on the Commission's web site--www.energy.ca.gov.
