Mr. John Kessler, Project Manager
California Energy Commission
15169th Street
Sacramento, CA 9581-5512

Subject: Revision to the Addendum to the Determination of Compliance (DOC) for CPV Sentinel (CPV) Proposed Power Plant Project (07-AFC-3, Facility ID No. 152707), to be located at 62575 Power Line Rd., Desert Hot Springs, CA 92440

Dear Mr. Kessler:

This is in reference to the CPV Sentinel, LLC (CPV) proposed power plant project Application For Certification (AFC) and the Title V application for a Permit to Construct filed with the California Energy Commission (CEC) and the South Coast Air Quality Management District (AQMD), respectively. AQMD issued a Preliminary Determination of Compliance (PDOC) for this project on May 7, 2008, and a Final Determination of Compliance (FDOC) on August 9, 2009. In addition, on March 2, 2010, AQMD issued an Addendum to the Determination of Compliance (ADOC) for the proposed project.

At this time AQMD has prepared a Revision to the March 2, 2010 ADOC for the CPV project. The Revision consists of changes only to Tables A and B of Attachment I to Appendix N of the ADOC. The amount of emission offsets provided in Revised Tables A and B for PM10 and SOx cover the amount of PM10 and SOx offsets needed by the CPV project. The Revised emission offsets are based on actual emissions reported to AQMD for equipment that has been shutdown and that has had the permits inactivated by AQMD. The actual emissions were reported to AQMD under AQMD's Annual Emissions Reporting program in the most recent one or two year(s) prior to shutdown of the equipment. The emission reductions for both PM10 and SOx have occurred during the calendar years 1999 through 2008.

Enclosed please find Revised Tables A and B, which are being submitted to CEC as a Revision to the March 2, 2010 ADOC for the CPV project. Please note that the attached Revision to the March 2, 2010 ADOC does not change AQMD's previous analysis and determination, indicating that the CPV project complies with all applicable requirements of the local, state and federal air quality Rules and Regulations.

PROOF OF SERVICE (REVISED 3/24/10) FILED WITH
ORIGINAL MAILED FROM SACRAMENTO ON 5/19/10
MS

The amounts of PM10 and SOx offsets in the Revised Tables A and B, respectively, have replaced the previous amounts of offsets deposited in the AB 1318 Tracking System and are available for use by CPV, as an electrical generating facility eligible to use the offsets pursuant to AB 1318. Also please note that the AQMD will include the Revised Tables A and B along with the AB 1318 Tracking System in its submittal to the U.S. Environmental Protection Agency (EPA) for approval and inclusion into the State Implementation Plan (SIP).

If you have any questions, please contact me at (909)396-2662 mnazemi1@aqmd.gov, or Mr. Kurt Wiese, General Counsel at (909)396-3460 kwiese@aqmd.gov.
