On October 8, 2008, the Application for Certification (AFC) was deemed data-adequate for the twelve-month review process consistent with Public Resources Code section 25540.6. The Committee conducted a public informational hearing on November 24, 2008, to discuss the schedule and other issues of concern, and shortly thereafter issued a Scheduling Order containing a schedule based upon both Staff and Applicant’s proposed schedules. A Revised Scheduling Order was issued on December 3, 2009.

The Committee conducted Evidentiary Hearings in El Centro on May 24 and 25, 2010. At that time, it was determined that as to some topics, notably Air Quality, Alternatives, Biological Resources, Cultural Resources, and Soil & Water Resources, additional information and analysis would become available several weeks later, primarily due to project changes recently submitted by the Applicant and ongoing preparation of biological and cultural resources studies. A Supplemental Staff Assessment (SSA) containing this information and analysis is scheduled for publication the first week of July 2010.

Accordingly, the Committee will hold further evidentiary hearings on July 26 and 27, and August 16, 2010, to complete the record. Formal notice of these hearings will be forthcoming shortly.

The Committee has developed the attached revised schedule which could result in issuance of a Final Decision by September 29, 2010. This would be accomplished through the shortening of certain review and briefing periods, while leaving intact legally required review periods. We may modify the schedule at any time upon either our own motion or that of a party. [Cal. Code Regs., tit. 20, § 1709.7(c).]

Dated: June 30, 2010 at Sacramento, California.
