
Notes:

(a) The 1990 percentage of minority residents includes all residents except white non-Hispanics. Since the race-by-Hispanic/Latino category was not available from the 2000 Census for California census tracts in July 2001, the minority percentage for 2000 includes non-white races, without regard for ethnicity. Ethnicity (Hispanic/Latino) is presented as a separate percentage.

(b) Below-poverty level statistics were not available in July 2001 from the 2000 Census; therefore 1990 below-poverty level data were used.

Title 5 permitted facilities and major pollution sources within 6 miles of the project site include a sugar refining and processing facility (labeled No. 1 on map), a glass container manufacturer (labeled No. 2 on map), and an electrical generation facility (labeled No. 3 on map). VISTA reported the sites listed in the table below and labeled on the map by area. VISTA database lists include hazardous waste sites permitted permitted by U.S. EPA (Toxic Release Inventory Sites) and the California Department of Toxic Substances Control.

			Database Category:						
Map Label	Number of Hazardous Site Locations	Number of Sites	LUST	SWLF	ERNS	TRIS	GNRTR	CORTESE	RCRA VIOL
Central	40	250	79	0	14	1	40	48	1
South	37	94	10	0	2	1	8	4	1
West	51	89	6	0	8	1	2	2	1

Key:
LUST = leaking underground storage tank
SWLF = solid waste landfill
ERNS = emergency response notification of spills
TRIS = toxic release inventory database
GNRTR = RCRA registered small or large generators of hazardous waste
CORTESE = state index of properties with hazardous waste
RCRA VIOL = RCRA violation/enforcement actions
